BOMBERS TRY TO BLOW UP BAPTIST CHURCH

EVACUATION OF THE RUHR RUMORED IN LONDON REPORTS

ACTION SAID TO FOLLOW REPORT ON DAWES' PLAN

By the United Press.

LONDON, Aug. 14.—Reports are current that a full agreement has been reached on the question of evacuation by French and Belgian of the Ruhr valley.

This action is said to have followed the call of the allied conference on the Dawes report at 5 o'clock this afternoon when the Germans and allied experts were asked to be present.

What amounted to a virtual ultimatum was handed to Germany today when representatives of Great Britain, the United States and Italy joined hands with Premier Herriot of France on the plan for Franco Belgian military evacuation of the Ruhr within one year.

The decision was handed to the Germans with the demand that they reply to the agreement by 3 p. m. today.

The Germans are waiting an answer from Berlin before replying. They are resentful of the ultimatum-like character of the proposal, one member of the delegation intimated.

Old Settlers Party To Be Featured By Eating Home Brew

STAMFORD, Aug. 14.—Old settlers' party is scheduled here for Aug. 14, the entertainment being furnished by R. L. Penick, pioneer merchant at his country place on Lake Penick, three miles south of Lueders. Invitations have been mailed to 110 persons who have lived in this county more than 40 years.

A dinner of exclusively home-grown products will be the feature of the day—barbecued beef, mutton, fish, country ham, and all that goes with such dished to make a real feast.

Each guest will be presented with a photograph of the gathering. Conveyance will be furnished for those unable to provide their own.

$30,000 To Be Given Away In Fair Races

DALLAS, Aug. 14.—Purses totaling $30,000 will be offered in the racing events at the Texas State fair here Oct. 11-26, W. H. Stratton, secretary, announced on his return from Chicago.

Racing events will be held daily except Sundays throughout the session, with entries from all parts of the State. Sportsmen from Chicago have signified their intention of placing several entries in the Dallas events, Stratton said.

Prizes in the four closing stake events have been tentatively agreed upon, and increased, but the amount has not been definitely announced.

The three-quarter track has been re-conditioned and improved by mixing fine gravel with the natural soil.

AGENTINE FLYER OFF ON LONG FLIGHT

By the United Press.

CALCUTTA, Aug. 14.—Major Zani Argentine airman, who is attempting an eastward flight around the world, hopped off here at 6:25 a. m.

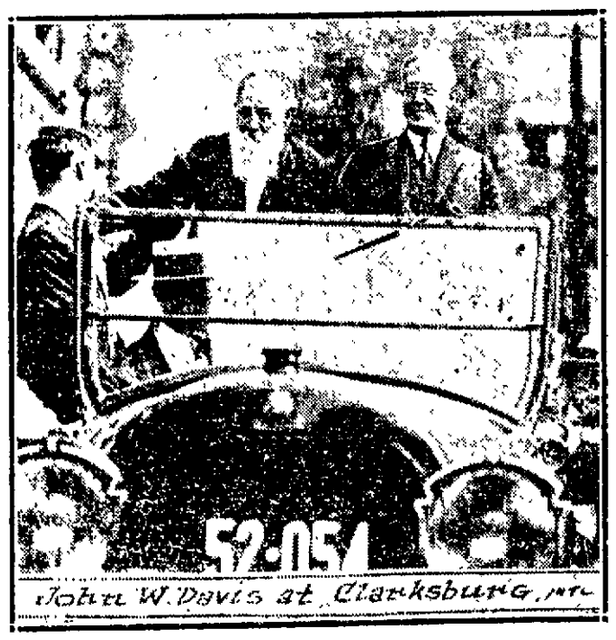
The next hop in the flight will take Zani to Rangoon. He attempted to make the flight Wednesday, but was forced to call it off owing to the trouble.

G. A. R. POST WITH ONLY FOUR MEMBERS GIVES UP

SCITAUTE, R. I., Aug. 14.—Nichols Post, G. A. R. has disbanded, following the course of many such institutions in the heart of old New England that once were the pride of their villages.

Nichols Post in its palmy days had 50 members; now it has but four, and they are too feeble to attend to lodge duties. But the members declare the real reason for surrendering their charter is the fact that their meeting place is to be torn down to make room for a new reservoir for the City of Providence and no other meeting place is available within a reasonable distance.

JOHN W. DAVIS WILDLY GREETED IN HOME TOWN.



John W. Davis, Democratic Presidential nominee, received a wild greeting when he returned to Clarksburg, W. Va., his home town, to receive the official notification of his nomination. He is shown here in a motor car with Colonel John C. Johnson, Clarksburg's oldest citizen, who, many years ago, taught Mr. Davis the first principles of democracy.

MYSTERY LURKS AROUND STORY OF WOMAN'S MURDER

By HAROLD SWISHER
(United Press Staff Correspondent)

LOS ANGELES, Cal., Aug. 14.—Upon the questioning of his sister may rest the fate of Norman Selby, better known to sporting circles as "Kid McCoy," under arrest for the death yesterday of Mrs. Theresa Mors, beautiful and wealthy antique dealer.

Besides a suspicion of murder charge, the former welterweight champion of the world is charged with wounding three persons in Mrs. Mors' shop, where he went on a shooting rampage that led to his arrest before the police had learned of the death of the wealthy shop owner.

In the background of the mystery is the end of McCoy's tenth marital plan. He was Mrs. Mors' protector, had lived at her apartment, and according to his own words, planned to marry her. He had been married nine times before—three times to one woman—and had been nine times divorced.

McCoy first denied killing Mrs. Mors, insisting she had killed her-

Waco Masons In Mexia Wednesday

More than 100 members of the four Waco Masonic lodges gave the master's degree for the Mexia Springfield Masonic lodge in Mexia last night.

The Waco delegation left the new Masonic temple at Eighth and Washington streets late yesterday afternoon and returned early this morning.

Members of the Waco Blue Lodge Certificate Men's association were in charge of the ceremonies. L. A. Nelson was chairman of the degree team, L. E. Studer directed the trip.

On arrival in Mexia shortly after 7 o'clock the Wacoans were given a banquet. Dance and other froms of entertainment were dispensed with so that the local men could return last night.

Masons of Mexia greatly appreciated the visit and crowded the Masonic Temple until a late hour.

BOY GIVES BLOOD TO SAVE HIS MOTHER

SAN ANTONIO, Texas, Aug. 14. Mrs. Lucille Griffin was slowly heating back to health in a hospital here today as the result of blood transfusions volunteered for by her three sons, the eldest twelve. The transfusions were deemed necessary to save the life of the mother, suffering with complications of diseases.

Cutting Corners Threatens Lives Daily In Mexia

The practice of cutting corners continues to be a menace to public safety of pedestrians and rider alike in Mexia. Hardly a day goes by but that reports are not made of accidents or near accidents because of this uncalled for hurry. Tuesday night at the corner of Bonham and Commerce streets, when traffic was heaviest, a car coming down Commerce met another which cut the intersection, the two jamming with a force that was apparent that only an accident kept it from being a serious accident. Both were crowded and the lives of several were endangered. The car guilty of cutting the corner was not badly enough damaged to put it out of commission or to stop the engine and wihout leaving any address hurried on towards Ross avenue, while a crowd quickly gathered around the other car to find that it had suffered only a broken fender but wih none of the three inmates injured.

GUSHERS RETURN HOME.

Tuffy Fowlkes and his rampaging Gushers came back to the old ball orchard last night and will engage Otto McIvers Rangers in a four game series. The Gushers made their last trip to Waco and came back with the Indians' scalps hanging from their belt and they were more joyous at heart than one can imagine. Lefty Jeffries was the one to get the sweetest revenge on the Indians as he lost a 16-nning thriller here to the Carson crew and he laid them low in the dust in two games of the series. Then, also, some more left handers come in for credit of two more of the games. Lefty Snow gets credit for the third game when he relieved Peel who was getting in hot water. Then last, but not least came "Moco" Big Ned Seeley from Greenville, who holds down an outfield position and camps under most of the balls sent out his way, walked into the box and "fooled" the Corsicanaites with his wronghanded offerings.

Well, if the Indians did not see enough left handers in the past series, they never will. John Paul Jones gets credit for the winning of the second game, but Lefty Snow played relief pitcher that day when the Indians threatened to make things interesting and breezed on through.

At this moment we are unable to find the box scores of the first game which Jeff won but with the last four games we have figured up that the Gushers scored 2 8runs off of 42 hits and made only three errors while the Indians scored 15 runs off 29 hits and made 14 errors. The 42 hits totaled up to 64 bases there being five home runs, seven two base hits, and 30 singles.

Carl Hill is likely to be Fowlkes' choice for mound duty while Otto McIver has not whispered who will work for his Rangers.

Today is also ladies' day and all of the fairer sex are will be admitted free.

DEADLOCK HOLDS CONFEREES IN MEETING IN LONDON

By LLOYD ALLEN,
United Press Staff Correspondent.

LONDON, Aug. 14. — Deadlocked over the date for military evacuation of the Ruhr, conferees on the Dawes reparations plan again turned to Anglo-American mediation to iron out the situation.

Hope for breaking the tangle which revolves about the demands of France and Germany, today depended upon a meeting between Prime Minister MacDonald and Ambassador Kellogg of the United States. Optimists were confident this meeting would provide the solution.

The present deadlock lies in the French and German divergency upon whether the Ruhr is to be evacuated in a few months or at the end of a year. Germany demands a fixed date, preferably six months. France has been unable to give a definite plan.

A meeting of the heads of the various delegations was called at No. 10 Downing street at 10 a. m. today. They met for an hour when the German delegation was invited in. The Meeting broke up in 30 minutes and when they came out the German conferees were asked whether there was a chance of a rupture.

"I cannot see who can afford to break," he said.

SUPREME COUNCIL WILL MEET IN CHARLESTON THIS YEAR

WASHINGTON, Aug. 14. — The next meeting if the Supreme Council, 33rd degree, A. & A. S. R., S. J., will be held in Charleston, S. C., beginning Wednesday, Sept. 24 at -0 o'clock. The meeting this year has an unusual sentimental interest in that this Supreme council, which is known as the "Mother Supreme Council of the World," and from which all other supreme councils receive their recognition and warrant, was established in Charleston, S. C., on May 31, 1801. Today Scottish Rite Freemasonry covers the world.

According to the regulations of the Supreme Council the annual meetings in the add years are held at the House of the Temple, Washington, but the other cities. In 1920 the meeting was meetings in even years are held in held in Colorado Springs, Colo., and in 1922 at Salt Lake City.

Elections to the honor of the thirty-third degree are held only at the Washington meetings.

YOUNG MAN PLEADS GUILTY TO FORGERY

A young man, giving his name as Floyd Smith, and his home as Kosse, was arraigned before Judge Kennedy's court at 2 o'clock Wednesday afternoon on two charges of forgery and passing a worthless check to local merchants.

Smith plead guilty to all the charges filed against him, and was bound over to the November term of court. His bond was set at $500 in each case.

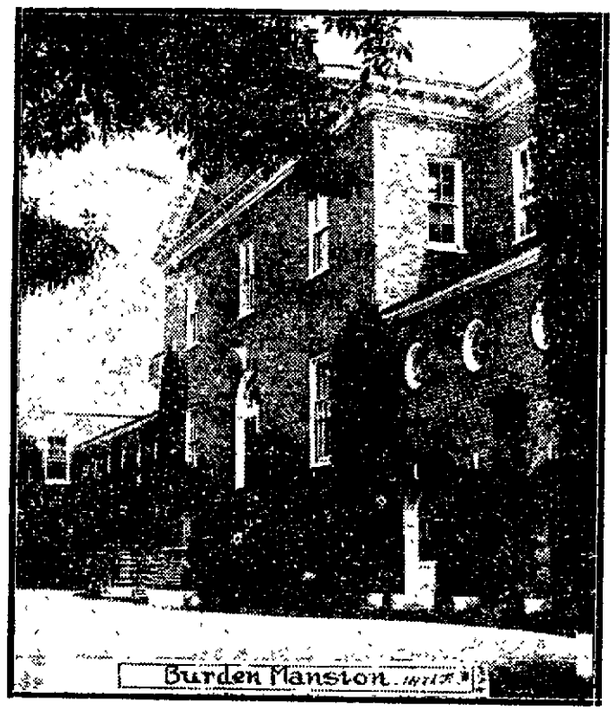
13,000 DIE IN FLOOD IN CHINA PAST YEAR

PEKIN, Aug. 14.—Flood deaths in China have not bene increased since July 15, according to announcements made by the International Famine Prevention Commission. Statistics show that thirteen thousand persons were killed by drowning and under collapsed buildings the past year.

LIGHTNING HITS BIK OIL TANK

CORSICANA, Aug. 14.—Approximately 1,800 barrels of crude oil was destroyed by fire after lightning struck a 55,000 barrel oil tank at the Magnolia Petroleum Company tank farm here during a thunderstorm yesterday. The fire burned itself out during the night. Damage to the tank was the greatest loss, officials said, as the oil destroyed was "green." No estimate of the loss was made.

BURDEN MANSION FOR PRINCE OF WALES.



The Prince of Wales and his suite will occupy the country estate of Mr. and Mrs. Abercrombie Burden, at Syosset, Long Island, a few miles from Glen Head, during his stay in New York to attend his stay in New York to attend the international polo matches in September. The Burden estate is one of the show places on Long Island, its gardens being equal to any in America.

Uncertain Goal Awaits Fliers Off Greenland Shores

RETJAVIK, Iceland, Aug. 14.—An uncertain goal awaited the American fliers here preparing to hop off from here today for the east coast of Greenland near the port of Angmaksalik.

After all plans had been made for the flight to be started at 8:00 o'clock today word was received from the Danish steamer Gertrude Rask that heavy fogs again surrounded Greenland. The ice packs had become worse and there was again some question of whether the fliers would be able to make a landing.

Immediately after this word was received, Admiral Nagruder, who is in charge of the flight, and Lieut. Lowell Smith, flight commander, went into conference.

Lieut. Smith wants no more delay in his flight homeward and announced that provided everything seemed safe around here the flier would attempt to get away sometime today.

The fliers will be guided by the weather at Annagsalik. If the weather permits, the filers will land in the Greenland waters, refuel and hop right on again. Otherwise, the fliers will attempt a landing at the Greenland port and await better weathere for the next leg of their journey.

Keys' Condition Worries Friends

At the beginning of the Rotary luncheon today, word came that I. W. Keys was in pretty serious condition at his home on Ross Avenue. Messrs. A. H. Berry and A. H. Eubanks left at once for his bedside. They found him suffering from what was thought to be a mild apoplectic stroke. He had just been to San Antonio with his family. Mrs. Keys and the baby returned by train and he drove through the country back home. This morning, he had a fainting spell which caused him to fall and bruise his face quite a good deal. Doctor T. F. Oates was called. President Eubanks of the Rotary club announced that he was not as serious as thought at first, nevertheless his condition was such as to give the Rotarians much concern. L. S. Patterson, chairman of the program committee, cut the program short on account of the announcement. The many friends of Mr. Keys hope that he will soon be up and out again.

T. P. TRAIN RUNS OVER MAN.

FT. WORTH, Aug. 14.—Believed to have been asleep on the tracks, a man, giving the name of Bill Haney, died in a hospital here last night shortly after being struck by a Texas Pacific train.

ROTARIAN BERRY HEARS ADDRESS BY HEAD OF CLUB

Albert H. Berry, of the Mexia Rotary Club, represented the local organization at a meeting Wednesday night at Dallas where Rotarians from this district heard an address by the president of Rotary International, Everett W. Hill. of Oklahoma City. Mr. Barry states that the occasion was inspirational and a great address was delivered by the speaker of the occasion. A large gathering was present, many Rotarians from many clubs joining the Dallas contingent around the banquet board.

Mr. Hill stressed the power of Rotary for good. He talked of the place of the individual in a club and the relation of the member to the success of the organization. He pointed out the six objects of Rotary and said that the program for the year would be centered around these principles.

"Hate, greed, envy, and fear are four furies that destroy happiness in the world," he declared. "To rid us of these furies we need the power of good the Rotary exercises. A spreading of the gospel of Rotary will eliminate national prejudices.

"To encourage and foster the ideal of service as a basis of all worthy enterprises is not a new idea but a restatement of the Golden Rule, as applied to business.

"Rotary encourages high ethical standards in business and professions and each member who represents his trade should carry the teachings of Rotary into his craft.

"The application of the ideal of service by every Rotarian to his personal, business and community life is the living of Rotary.

An Opportunity for Service.

"The object of Rotary is to develop acquaintances among members as an opportunity for service. Rotary also teaches the recognition of the worthiness of all useful occupations and the dignifying by each Rotarian of his occupation as an opportunity to serve society.

"The advancement of understanding, good will and international peace through a world fellowship of business and professional men united in the Rotarian ideal of service is the final and all inclusive object of Rotary. The accomplishment of this object will make possible the overcoming of international boundaries and selfish misunderstandings," Mr. Hill said. He closed with a quotation by John Temple Graves.

THE WEATHER

Mexia and vicinity, unsettled, local showers.

ATTACK MADE AS ACT OF REVENGE AGAINST PASTOR

By the United Press.

NIAGARA FALLS, Aug. 14.—The First Baptist church of this city, located in the heart of the business district, was bombed this morning. Windows of the church were blown out and buildings across the street from the edifice were damaged.

Police are working on the case, with clues to guide them to a gang that is believed to have planned and carried out the bombing as an act of revenge against the pastor, Rev. C. B. Mercer, who is the leader of several crusades here.

Four Matches To Be Played Today On Golf Course

Much excitement prevailed at the Mexia Country Club Tuesday afternoon when about 40 aspirants to the beautiful loving cup given by L. S. Patterson of the Patterson Jewelry Company gathered together for the initial tryout. The hot August sun was at its best and had the thermometer hovering above he 100 mark, but the sweltering heat did not hamper the spirit of the golfers who went into the game to win the trophy. The course is now in fine shape, nearly all the fairways are baked almost to the hardness of dried cement, and a delicate tap rolls the ball to kingdom come. A low line drive and the ball hurdles everything in sight. The distant markers along the boundary go by like telegraph poles past a speeding train. Those who are taking their daily dozen at the golf course after business hours are enjoying the fine condition of the greens and are improving their score day by day.

The first tryout eliminated all but the sixteen following names: Estol Everett, L. S. Patterson, John Sanders, Val Horn, Allen Hatch, Gene Sinclair, T. F. Morrow, A. H. Eubanks, John Cook, Roscoe Cook, Alex Bristow, D. W. Harris, J. L. Hearne, Clay Berry, E. Watson, Sr. and E. M. Hitt.

Wednesday afternoon with Old Sol behind the cloud and the course drenched by a downpour of rain earlier in the day, saw all but one back for the matches in which half of them would be put out of the running. In the eight matches the winners were as follows: L. S. Patterson defeated Estol Everett, John Sanders defeated Val Horn, Allan Hatch defeated Gene Sinclair, T. F. Morrow defeated A. H. Eubanks, John Cook defeated Roscoe Cook, Alex Bristow defeated D. W. Harris, J. L. Hearne won over Clay Berry by default and E. Watson, Sr., defeated E. M. Hitt.

There will be four matches this afternoon in which L. S. Patterson will play John Sanders, Allen Hatch will play T. F. Morrow, John Cook will play Alex Bristow and and J. L. Hearne will match E. Watson. The weather is fine for the match and a large crowd is expected out to see who will be in the finals. It is planned to have the four winners in Thursday's game to play off their match Friday afternoon, and possibly the finals will also be reached, but it is now expected that the finals will not be played before Saturday afternoon.

The magnificent loving cup which stands fifteen and a half inches high is a prize to be highly valued and it is something that can be shown with pride for many years to come. The cup has been turned over to the Golf Committee to be presented to the champion in the final playoff. "Pat" Patterson is still in the running himself and looks like he has a good chance at the finals, but anyway he is going to make his competitors do their best playing to keep him from winning back his own cup.

ADMIRAL BULLARD MOVES HEADQUARTERS AND KEEPS SILENT AS TO CAMPAIGN

By the United Press.

WASHINGTON, Aug. 14.—Admiral Frederick Bullard Commandant of the United States Guard has temporarily transferred his headquarters to "Jersey Coast" to assume personal charge for the coming offensive against rum runners. It has been learned that greatest precautions will be maintained to guard his whereabouts and to keep secret his plans for the drive.

MYSTERY LURKS AROUND STORY OF WOMAN'S MURDER

(Contiued from Page One)

self in the apartment, where the two had been living together as man and wife, following Mrs. Mors' recent divorce from her husband.

However, a note delivered anonymously to Captain of Detectives Herman Cline said that the pugilist had visited the home of his sister early yesterday morning and told her he had "shot the only woman he ever loved."

District Attorney Asa Keyes has summoned McCoy's sister, whose name is being withheld, to appear at his office today and hopes, thru questioning her to tighten the chain of evidence around the former fighter.

Through long hours of grilling last night McCoy stuck to his story that Mrs. Mors had committed suicide.

"I wouldn't have killed her," he cried. "I loved her. She is the only woman I ever really loved. Why would I have killed her?"

The first knowledge of Mrs. Mors' death was obtained by police when the former pugilist emerged from the woman's antique shop with a revolver in his hand, after going on a shooting rampage and wounding three occupants of the shop.

According to the story told by McCoy's victims the shop had just opened when the fighter entered. William C. Ross, a millionaire manufacturer and friend of Mrs. Mors; V. C. Emden and Sam Stern, an auctioneer, were present.

Walking into the shop, McCoy looked around, then suddenly pulling a revolver from his hip pocket, ordered the men to back up against the wall and remove their clothing.

He appeared to be greatly excited and in a nervous, jerky voice warned the three people he would kill them if they attempted to leave. While the men were undressing McCoy picked up a drinking glass and hurled it at Stern.

Six other persons entered the shop in the meantime and the pugilist ordered them to line up against the wall with the others.

McCoy turned his attention from his victims a moment and Ross darted towards the door. McCoy shot him and he fell a few feet from the door.

Then the seemingly crazed man turned his revolver towards the others still standing against the wall and fired four shots at them and wounded Mr. and Mrs. Samuel Schapp, two of the party of six who started in at the noise of the shooting.

McCoy ran from the shop and was arrested a few minutes later when a policeman saw him with the gun still in his hand.

Shortly after his arrest, police learned of Mrs. Mors' death from her maid, who found her lying on the floor of her apartment with a photograph of McCoy clutched in her hand.

No revolver was found in the room, police said, and, according to them, the bullet which killed Mrs. Mors was one of the same calibre as those used in McCoy's revolver.

While police sought a plausible motive for the killing the dead woman's husband notified police he was ready to give himself up in the event he should be suspected of any connection with the death of his wife.

McCoy was sullen and defiant when police arrested him and at first refused to answer any of their questions.

Later he told several different stories, all relating to his affairs with Mrs. Mors but insisting she had killed herself.

Notes found in the dead woman's apartment of an endearing nature and signed "Sam" may lead to the arrest of another man in connection with the murder, police said. That this man whose identity police have been unable to determine may prove the motive of Mrs. Mors' murder, police believe, on the grounds of jealously on McCoy's part.

A coroner's inquest over the body will be held Friday.

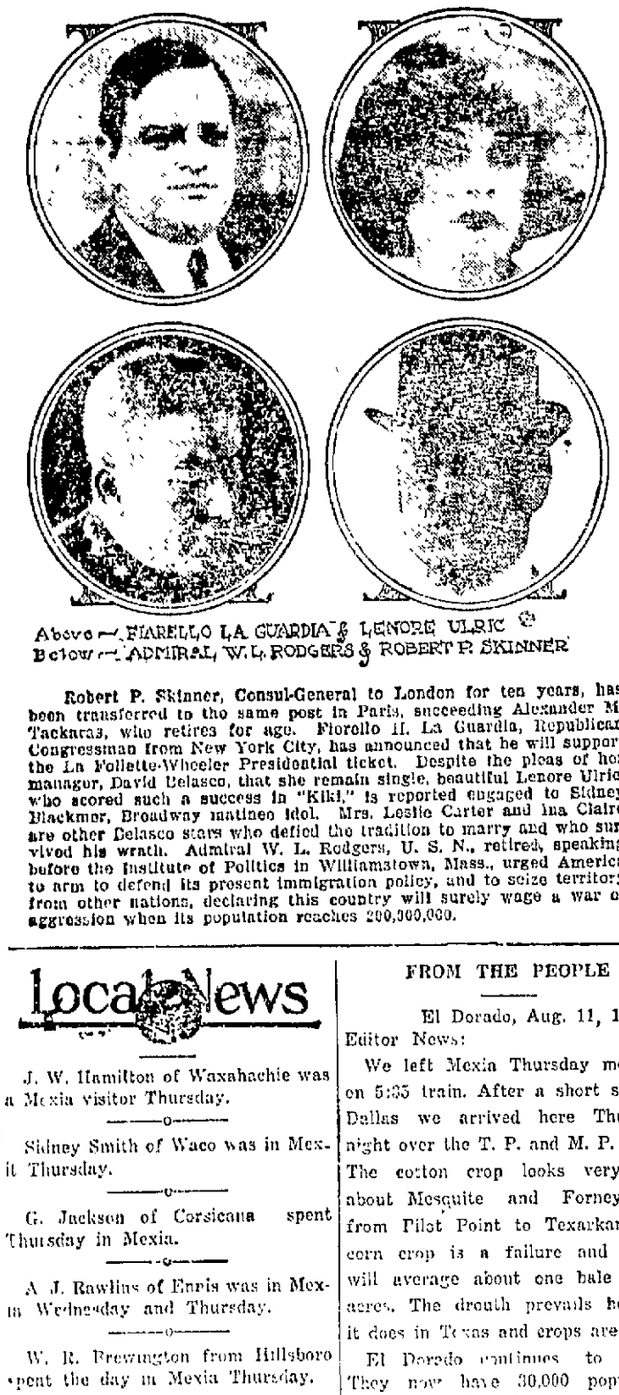
Meantime, funeral arrangements are being made by Mrs. Mors' mother.

OIL PRODUCTION

The American Petroleum Institute estimates that the daily average gross crude oil production in the United States for the week ended August 2 was 2,805,100 barrels, as compared with 2,006,600 barrels for the preceding week, a decrease of 1,500 barrels. The daily average production east of the Rocky Mountains was 1,576,800 barrels, as compared with 1,283,100 barrels, a decrease of 5,600 barrels. California production was 628,300 barrels, as compared with 624,200 barrels, an increase of 4,100 barrels.

FOR SALE—Shack house, 14x28, partitioned into 3 rooms. Will sell for $100.00 cash. Must move it off lot in next 30 days.—E. J. Ormsby, Pioneer News Stand. 14J2

CHIEF FIGURES IN THE NEWS OF THE DAY



Above—FIARELLO LA GUARDIA & LENORE ULRIC
Below—ADMIRAL W. L. RODGERS & ROBERT P. SKINNER

Robert P. Skinner, Consul-General to London for ten years, has been transferred to the same post in Paris, succeeding Alexander M. Tackaras, who retires for age. Fiorello H. La Guardia, Republican Congressman from New York City, has announced that he will support the La Follette-Wheeler Presidential ticket. Despite the pleas of her manager, David Belasco, that she remain single, beautiful Lenore Ulric, who scored such a success in "Kiki," is reported engaged to Sidney Blackmer, Broadway matinee idol. Mrs. Leslie Carter and Ina Claire are other Belasco stars who defied the tradition to marry and who survived his wrath. Admiral W. L. Rodgers, U. S. N., retired, speaking before the Institute of Politics in Williamstown, Mass., urged America to arm to defend its present immigration policy, and to seize territory from other nations, declaring this country will surely wage a war of aggression when its population reaches 200,000,000.

FROM THE PEOPLE

El Dorado, Aug. 11, 1924.

Editor News:

We left Mexia Thursday morning on 5:35 train. After a short stop in Dallas we arrived here Thursday night over the T. P. and M. P. roads. The cotton crop looks very well about Mesquite and Forney but from Pilot Point to Texarkana the corn crop is a failure and cotton will average about one bale to 20 acres. The drouth prevails here as it does in Texas and crops are short.

El Dorado continues to grow. They now have 30,000 population and still building in every direction. The new Methodist and Baptist churches, the Garrett and Randolph hotels, high school buildings and many of the beautiful residences would be a credit to a city of 50,000 population. The streets are made beautiful by great oak, pine and sweet gum shade trees and they tell me the lightning never strikes a sweet gum tree.

This is one of the greatest oil fields of the world.

95,000 barrels go out every day in tank cars and through pipe lines, besides what the two refineries use up. The Crusader Pipe Line Co. has entered this field. They are building a pipe line to Baton Rouge, La., have established their own banks here and will make business lively in competing with the Standard.

I attended Sunday school and church services in the magnificent new Methodist church that cost $150,000. They showed this Texas preacher every courtesy, had me to make a talk to the Bible class in the Sunday school and conduct the opening services at the preaching hour.

Friends are very kind in showing us the city by day and by night and to be sure we are having a royal good time.—G. W. Kincheloe.

"The ENEMY SEX" with Betty Compson
A JAMES CRUZE PRODUCTION

My Word! One Must Be Dressed Just So, Y'Know!

LONDON.—There has been a bull market on spats, yellow gloves, top-hats and walking-sticks during the American invasion of London this summer.

The advertising men and members of the American Bar Association almost exhausted the supply of "toppers" in some of the hatteries in the fashionable shopping districts. In order to be properly dressed at the Buckingham Palace garden party, and other functions in honor of the Americans, it was necessary, of course, to have a silk hat. A few of the lawyers brought "toppers" with them, but most of them waited to buy one here.

At the Buckingham Palace garden party, Judge J. Crawford Biggs of North Carolina did not wear spats and did not carry a cane, and, by a coincidence, neither did the King. Therefore, Judge Biggs has been hailed by London newspapers as the man, Britisher or American, "with fewest sartorial imperfections" at the party. The reason Judge Biggs wasn't perfect, was that he happened to wear yellow gloves, whereas, the King wore grey ones.

SPORT TABLOIDS.

CHICAGO, Aug. 14.—Sixteen players in the Western Junior gold championship remained today for the second round of match play. George Nickle of Chicago continued the favorite to win the tournament, coming through the opening round with an easy win.

CHICAGO, Aug. 14.—A traffic jam checked a taxicab in its race with the stork and when it reached the hospital with Mrs. Herbert Gustofason, the passenger list had increased 10 per cent.

BERWIN, Ill., Aug. 14.—Mrs. Rebecca Ruberham, 66, and Frank Smith, 70, obtained a license to marry. The bride is the mother of Beryn's mayor. Her hair has been freshly bobbed for the wedding.

THE BABY

How Long Is the Band Required?

The snug flannel band, not usually more than three or four months. In healthy infants with plenty of fat this may be replaced by the knitted band, which may be worn up to eighteen months. The band is an important article of dress in case of thin infants whose abdominal organs are not sufficiently protected by fat. With such, or with those prone to diarrhea, it is often advisable to continue the band until the third or fourth year.

Summer Clothing.—Only the thinest gauze flannel undershirts should be worn, and changes in temperature should be met by changes in the outer garments. The greatest care should be taken that children are not kept too hot in the middle of he day, while extra wraps should be used morning and evening, especially at the seashore or in the mountains.

SURPRISE PARTY GIVEN MR. AND MRS. FRANK IRWIN

The home of Mr. and Mrs. Arthur Bonner was the scene of a very pretty and enjoyable surprise party given on Tuesday evening, by the friends of the newly married couple, Mr. and Mrs. Frank Irwin.

An artistically woven pink and white color scheme was carried through even the finest details. Beautiful baskets of pink and white Vincas were placed about the suite, making a very artistic setting for he party. A delightful musical program was given by Mesdames Sergent Schoche and Best which made it a most perfect affair, after which refreshments of brick ice cream, cake and marshmallow mints were served.

The happy couple were recipients of many beautiful presents and wished a long and prosperous life by their many friends.

John Prickett is a Dallas visitor since Wednesday.

WATCHING THE SCOREBOARD.

Yesterday's Hero.—Charley Gruien, Pirate first baseman, tripled in the sixth inning and drove in the run that broke the tie and helped beat the Giants, 4 to 2.

After losing the first game, 8 to 4, the Athletics went eleven innings to beat the Tigers 8 to 7 and pulled them out of first place.

The Yonkees crawled back into first place by taking a double header from the Browns 1 to 0, and 2 to 1 behind the good pitching of Pennock and Bush. Ruth got one hit in seven times up.

Bunched hits in the first and sixth innings gave the Indians a 5 to 1 victory over the Senators and moved them up a place to fifth position.

The Red Sox took a double-header from the Athletics 6 to 0 and 4 to 1 and moved from the cellar to seventh place.

Yesterday's home run hitters. Hole, Athletics, 1-1.

FIGHTS AND FIGHTERS.

NEW YORK, Aug. 14. — Good weather today made favorable the chances of staging the Louis Vicentini-Jack Bernstin lightweight bout in Brooklyn tonight. The bout was postponed from Monday night on account of rain.

NE WYORK, Aug. 14.—Changes in betting on the Firpo-Wills fight were reported by several Wall street commissioners. Wills had been the favorite in the early offers but a flood of Firpo money changed the adds to 11 to 10 on the South Amreican.

FOR SALE—at a bargain one 6-room house, double two story garage on two lots, about 4 blocks city hall, on East Main, for price and terms, P. O. Box 328. 14J2

Earl Fleharty was a visitor from Sweetwater today.

YOU HATE TO LOOK AT A PIMPLY FACE

There is perhaps nothing more distressing to people who are bothered with them, and surely nothing as displeasing to others who see them, as pimples, blotches, bumps, rash, scrofula, eczema, "breaking out" and similar skin disfigurers.

But now that Black and White Ointment, and Soap, are proving to be so dependable in quickly getting rid of these diseases of the skin, it seems foolish for people to neglect using them and making themselves attractive to others instead of being slighted all the time.

All dealers have Black and White Ointment, and Soap, in the convenient, low-priced, liberal packages. The 50c size Ointment contains three times as much as the liberal 25c size. —(Adv.)

The Little Red Hen

"Puck, puck, puck, pucKAYah," cackles the little red hen, as she steps off the warm nest, broadcasting to the barnyard that she has just laid a fine, fresh egg. She makes a product that any "manufacturer" might be proud of, and doesn't hesitate to advertise the fact.

A duck egg might be just as good, but the duck evidently doesn't think so. She doesn't advertise, and duck eggs have no market.

To be absolutely sure in buying ANY merchandise stick to the advertised brands. For their manufacturers believe in them and tell you about them daily in the advertising columns of this newspaper, over their signatures.

The duck-egg brands might be just as good, but you cannot be sure, if the manufacturers themselves will not admit it!

Read the advertisements regularly. Buy from them. You will then know the source of the products, and whom to look to if they don't measure up.

Advertising is the radio of commerce—broadcasting things you should know.

The Question Of The Universe

This Bible—this miraculous Bible—this Book of All Books---luminous with the light that dwell-eth not on land or sea—this noblest and most be autiful Thing in all the world—what is it---whence cometh it—what means it?

WHAT HAS IT DONE?

It has made and unmade Nations. It has uprooted Kingdoms and Empires. It has diverted the mighty tides of History. It has crumpled ancient Faiths and Superstitions. Because of it fell Pagan Rome. The antique Systems of India and the Far East have bowed their heads to its enlightened sway.

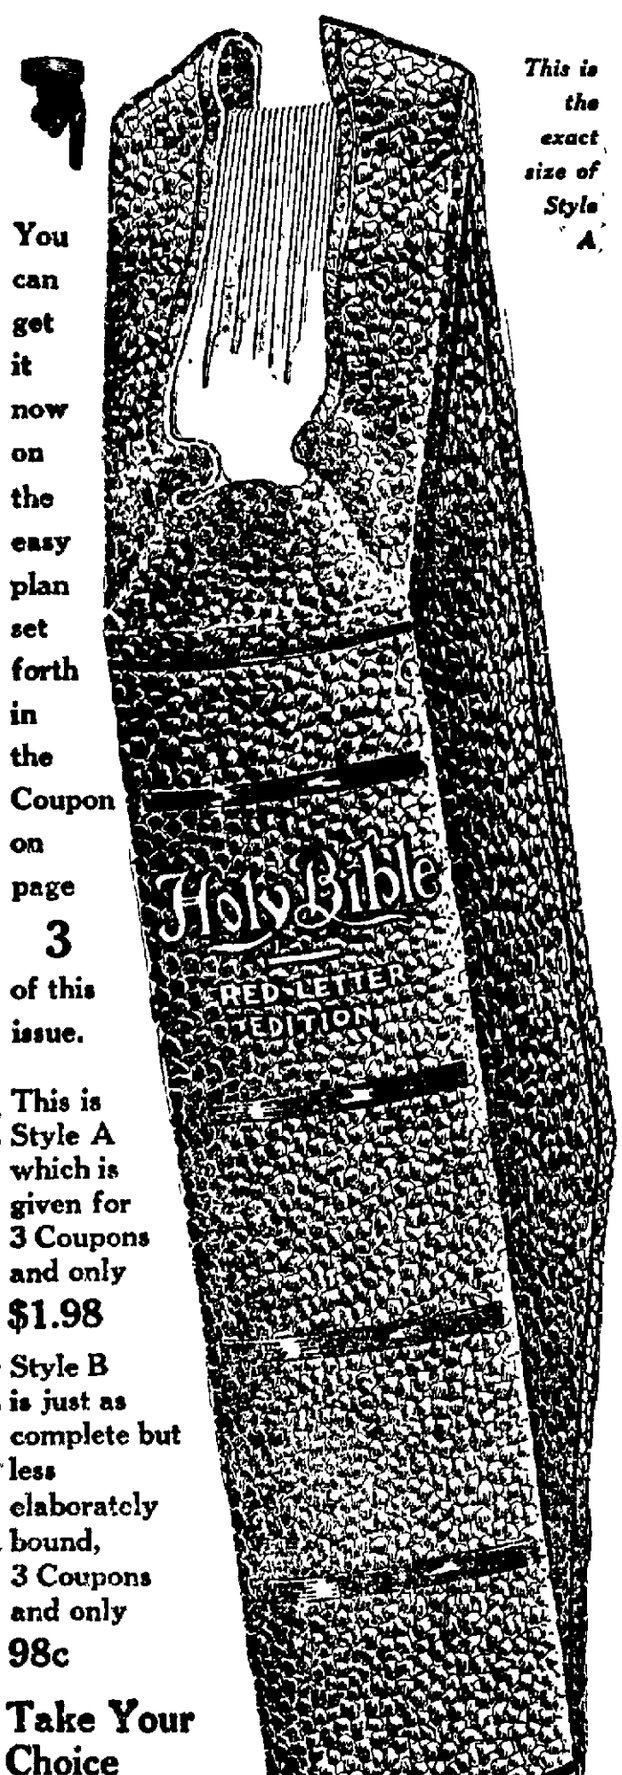
China and the Orient now first awaken from their sleep of thrice a thousand years, and follow their sister nations of the Occident—whose feet are guided by one sole lamp—the sacred flame of which was kindled by the inspired Hebrew Prophets, and fed for all time by the Lord and Master of the Golden Rule.

Only ignorance scoffs at the Bible! The greatest rulers—the greatest statesmen—the greatest scholars—writers—orators—scientists—soldiers—and the untold milions of the Common People, whose collective genius outweighs them all—have thrilled to its Divine Wisdom.

Its lyrics of unfathomable tenderness—its orations of compelling potency—its contemplative prose of preternatural grandeur—have never been equalled. Its emotional depths and its intellectual heights make it the one and only Book of Books, vouchsafed for the guidance of mankind throughout the ages.

YOU Need This Bible in Your Home

Which is the reason this big distribution is now being carried on



This is the exact size of Style A

You can get it now on the easy plan set forth in the Coupon on page 3 of this issue.

This is Style A which is given for 3 Coupons and only **$1.98**

Style B is just as complete but less elaborately bound, 3 Coupons and only **98c**

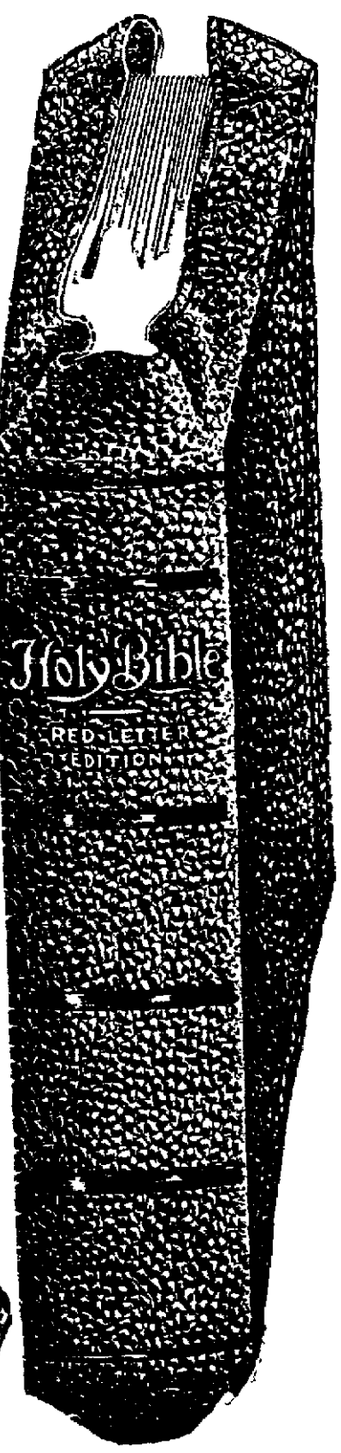
BIBLE DISTRIBUTION

Following the most distressing period of unrest the world has ever known, comes a world-wide revival of Bible reading, which must tend to ameliorate the unrestful conditions of mankind. To encourage such an end, leading newspapers througout this country have joined forces to promote the distribution of the great Book of Books, and have adopted a plan that should readily place the Bible in the hands of every reader. Two exclusive editions have been chosen for this purpose—first, the famous large print Red Letter Bible, illustrated herein, and a beautiful plain print, medium large type edition that will be distributed for a nominal sum by the News Publishing Co.



EVERY READER MAY HAVE THIS BIBLE

by taking advantage of the plan explained below and set forth in the Bible Coupon printed daily on another page of this newspaper.

"For Mexia, I WILL"

CAN'T FIGHT INTOLERANCE WITH INTOLERANCE

The injection of the Klan issue into Texas politics has not been a source of much surprise to any one, if any at all. For the past two years, the contest, similar to that being waged in Texas today, has been going on in neighboring states and in sister states of the American Union. Sometimes it is possible for one state to learn something from another state and from what has been going on in Oklahoma, Louisiana, states of the East and far Northwest, one is convinced that there are bigots everywhere and on both sides. There are the honest and there are the dishonest in Texas today just as there were in the other states and just like there always have been in Texas. We have men in this fair land who seek to capitalize the Klan and others who seek to capitalize the anti-Klan. The object of the antis generally is to conceal the real issue which is prohibition.

In speaking in this vein of thought, Jared Y. Sanders, Governor of Louisiana, before the National Democratic Convention in New York, while opposing mentioning the Klan in the party's political campaign, said:

We have a State settled by the French, owned and governed by the Spaniards, thence back beneath the Tricolor of the French Republic, until the great founder of our party, acquired it and added an empire to the Thirteen Original Colonies.

We have French and Spanish and English and Irish and Scotch; we have a tremendous Catholic population and a large Protestant population, and also a fair sprinkling of the dispersed of Israel.

But when we tried several months ago to capitalize the passions and the prejudices of men, when a candidate took the field in Louisiana appealing to race and religion, backed by the State and City Government, backed by practically every newspaper in Louisiana, there were some of us who thought that above Klan and above anti-Klan there was true Americanism (applause) and a candidate ran for Governor in our state on the broad principles of religious freedom, of tolerance, of decency in Government, and he refused to proscribe any man for conscience sake, and drew the line on no order of any description, stating that he submitted his candidacy to the right-thinking, tolerant men and women of Louisiana, Jew and Gentile, Catholic and Protestant. (Applause.)

A Voice—Did he win?

Mr. Sanders—And that man, running on that platform, with all the power of State and city and press against him, made such an appeal to the right-thinking men of Louisiana that we won by the biggest majority ever given a Democratic candidate in our State. (Applause). And the politicians were confounded.

Oh, my fellow-Democrats, no matter where we come from, remember all the bigots do not belong to one church, nor do all the rascals belong to one section. (Applause). And remember one thing more—you cannot fight intolerance with intolerance. (Applause.) You cannot fight the devil with fire. He is an expert in that line. (Laughter and applause.)

BUSINESS OUTLOOK ENCOURAGING

Under ordinary rules of economics one of two factors may be depended upon to bring about a change in the volume of trades, and to [illegible] buying [illegible] mouth attitude to [illegible] and [illegible]. The first is the decline of prices to a point where goods, and services are attractive; the second, the exhaustion of supplies to a point where there replenishment becomes necessary. There is now good reason to and one optimism that persons in this section of which rests enthusiastic expectation through Hardy Evans, President, and Jere Chism, [illegible] as well as the other officers and directors of the Mexia Chamber of Commerce.

The demand for cotton, be the exhaustion of supplies of the raw product, and the crop which will begin to come in in earnest in a few days at the most favorable factor bringing about this happy condition in the business life of the country.

Political uncertainties, which always arrest trade and business, will disappear, as far as the [illegible] concerned, within the next two weeks and then the public, the producer, the business man, farmer and laborer, may again concentrate upon matters of vital interest to local welfare.

The most dependable barometer of business conditions are bank clearings and railroad earnings, and from favorable reports in this connection has sprung an optimism throughout the financial circles of our country. Indeed, there is every reason to believe that optimism is growing in all parts of the United States.

Far-sighted citizens know that the farmer has been the greatest instrumentality in bringing about this bright outlook. When the farmer is happy, the nation is happy. When the farmer prospers, he distributes his prosperity throughout the length and breadth of the land. He is the foundation stone upon which normal business and progress must be constructed. Mexia invites his friendship and offers him her good will and friendly cooperation.

Let's have a market place in Mexia for the farmers.

THE EDITORIAL OF THE DAY

KEEP THE ISSUE CLEAR.

(Texas Christian Advocate)

We are now in the midst of the run-off campaign in the governor's race. On the 23rd the people of Texas will again go to the polls to determine who shall fill this high office. The right to vote is more than a privilege—it is a solemn obligation, and every qualified voter does less than his full duty in the matter if he does not go to the polls. It is part of the duty of Christian citizenship to see to it that law is enforced and good government maintained. This is largely accomplished through the election of officials of the right sort. This statement holds true whether the official to be chosen is to fill an office of large or of small responsibility. It is particularly true of an office of such importance as that of governor of Texas. We have had one experience in recent years that culminated in one of the saddest chapters in the history of our State politics. We must not be swayed by sentiment, but we should be ruled by judgment. Let us keep the issue clear. The issue, regardless of what may be said, is prohibition and the enforcement of prohibition laws. We must quit allowing ourselves to think of the prohibition issue as a sort of parlor question over which we might have an evening's discussion or debate. It is a question that lies at the very roots of our civilization. In the present contest no one claims that all who are on one side are anti-prohibitionists. But all the anti-prohibitionists are on one side, and that of itself is a sufficient warning. This is no time to lose sight of the issue. Keep it clear by putting into the governor's office that candidate whose previous record, and whose published platform leave no shadow of doubt in our minds that the University and school system of the State will in no wise be interfered with or crippled, and that what we have had to contend bitterly for in our prohibition fights will be maintained.

FROM THE PEOPLE.

To The News:

The report of the recent trouble of the imperial wizard and his negro masseur, caused by the attempt by the latter to occupy a Pullman berth, seems to be causing considerable discussion and some little friction in various parts of the State. In the interest of harmony I suggest the adoption by the Democratic convention at Austin of the following resolution:

Whereas: It is reported in the press of this State with white passengers on a train between Shreveport and Fort Worth recently compelled the negro masseur of Dr. Hiram Evans, imperial wizard of the Ku Klux Klan, to give up his berth in a sleeping car and ride in the negro coach; now therefore, be it

Resolved, That the Democratic convention of Texas condemns and resents the action of said passengers in interfering with the prerogatives of royalty, inherent in and attaching to the imperial wizard, and that we request the governor in whatever State in which the facts shall show such outrage took place to submit to the next legislature of such State appropriate legislation permitting the imperial wizard and all other high officials of the Ku Klux Klan to be accompanied by and carry with them into any and all places such negro retainers, masseurs, valets, hair dressers and friends as they desire. And that all agents of sleeping car companies be required, before selling accommodations in any sleeping car, to communicate with the cyclops of the nearest Klan and ascertain what number of berths, sections and drawing rooms will likely be required for the use of any high officers of the Klan and their negro retainers and friends, and said agents shall be required, under severe penalties, to make such necessary reservations, after which the remaining space, if any, may be sold to the general public, Klansmen of lower degree, however, being given preference over aliens.

Very truly yours,
JAMES B. HUBBARD.
Belton, Texas.

CENTRAL TEXAS PRESS.

Editorial Dignity.

To what frailty hath the dignity of an editor come that it must hinge upon the condition of his trousers! It is no pleasant commentary upon the standing of the profession that one of its number should feel that all is lost because somebody squirted a hose on his best pants. And yet, according to a news item from Dubuque, Iowa, the editor of a paper in that community claims to have been humiliated and to have had his trousers ruined by a too intensive and concentrated application of the national drink and is suing for $10,000 damages.

Shades of Greely, Dana, Watterson and all the rest of them! Time was when an editor's dignity couldn't be pried loose with a crowbar. The late Mr. Greeley is said to have worn a shirt so intricately patterned with tobacco juice and egg stains that it could be entered in a modern art exhibition as a futurist sunrise. But did a little thing like that impair the dignity of a great man, as editor? What would Greeley thing of a man whose dignity was so feeble that it succumbed to wet trousers? What would he think if that man were an editor?

It is significant of the decadence which has come upon the editorial person that one of them should even be concerned about having a good pair of pants. It smacks of a scrambling after the mammon of unrighteousness that is unworthy of editorial predecessors whose minds were stayed on loftier things. They were stalwarts, who fought and shed ink for principles, with trousers frayed at the bottoms and patches where they would do the most good. They might even have lost their trousers, but never their dignity—nay, not even if their shirt had gone, too.

It is no desire of ours to prejudice the courts of Iowa in this case. Being so far removed, it isn't likely that we shall, but come what may, we cannot refrain from remarking that any editor whose dignity is so delicate it can be damaged by a hose is profiteering if the asks $10,000 for it.—New York Sun.

Ill fares the editor
To hastening rags a prey,
Where wealth accumulates
And pants decay.

While there has been a loss of 15 percent in total population in Alaska between the two last census periods, there has been an increase of 20 per per cent in the total white female population of that territory in the same time.

A smokeless fuel has been successfully produced from coal in England.

The annual gas production in the United States is 330,000,000,000 feet.

W. M. Tatum, Jr., from Corsicana spent the day in Mexia Thursday.

Sub Debs Ready For Arrival Of Prince of Wales

By BETTY EDWARDS,
Written for The United Press.)

WASHINGTON, Aug. 14.—Edward, Prince of Wales, the most captivating bit of young royalty in modern times, coming back to Washington for an hour—but what a contrast to the days of entertainment that marked his last visit here.

Sub-deb hearts fluttered, for there were dances and receptions and dinners. A dance with a royal prince was a delicious prospect. Fortunate matrons of the ultra "cliff dwelling" set found the chance to cap their social career with a tea or dinner for the heir to the British throne—a feat to shed glory on the name throughout all future generations.

But this time—the White House says there will be only a luncheon en famille—at once the highest mark of respect to royalty and a mark of respect to young Calvin, Jr., who died scarcely a month ago—and perhaps an informal reception. Even that is not certain.

According to tentative plans broached, the reception would be restricted to members of the cabinet, their wives, high officers of the army and navy and a few of the cream of Washington society.

It is to be doubted very much if this meager prospect would lure the latter from their summer homes at Bar Harbor, Long Island, and Massachusetts, unless the White House invitation is looked on as a royal command—and the leaders of society here, outside of official life have always made it a point not to do that.

Nearly everybody is out of town and probably will stay out. They will pin their hopes of a glimpse of the prince, or a dance at one of the functions for which he has accepted invitations along Long Island Sound. There will be a dance given by Clarence Mackay, a dinner at the Piping Rock Club and perhaps something at the home of James A. Purdon at Sagamore, where he will stay during the polo match.

Way for the official reception to be given the prince.

At the war department today it was announced that orders had been issued for a choice troop of cavalry to meet the prince upon his arrival at the Union Station and escort him to the White House.

WELL IS DRILLED 2,030 FEET IN LESS THAN SEVEN DAYS

LULING, Texas, Aug. 14—The recent drilling record set by the J. K. Hughes Developing Company crew when they spudded in a well on Sunday and set casing eight days later after drilling 2110 feet caused a number of contractors to enter the competition, and Everett Sulache, drilling for the Hamlin Drilling Company on the Allen 18 of J. K. Hughes Developing Company has put up a new record. Spudding in the well on Sunday, Aug. 3, they had drilled 2,030 feet to the pay and set the casing on Sunday, Aug. 10, consuming exactly six days and nine hours in drilling the well. In the first day's running they made 804 feet in twelve hours.

"MEAT FOR HEALTH" IS SLOGAN OF PRODUCERS

CHICAGO, Aug. 14—"Meat for Health" has been adopted as the official slogan of the livestock and meat producers of the United States, according to an announcement made here by R. C. Pollock, managing director of the National Live Stock and Meat Board which represents livestock producers, commission men packers and retailers.

The slogan selection was picked from a list of 1,500 entered by members of the National Board. "Meat the Kind of Food" came second in favor. "Meat Makes for More Comfort" was third.

Lumber Made of Sugar-Cane Only U.S. Exhibit at Wembley

B. G. DAHLBERG
PRESIDENT CELOTEX COMPANY

CHICAGO — Synthetic lumber made in the United States from the waste fibre of sugar-cane is the only product manufactured outside the British Empire on exhibition at the British Empire exposition at Wembley, England, according to the Hon. A. H. Jones, of Brisbane, Australia, Minister of Mines of Queensland, in Chicago on his way back to the Antipodes.

"The new sugar-cane lumber," said Mr. Jones, "is among the Wembley exhibits because under the superintendence of the Australian government, a $2,000,000 plant for its manufacture is soon to be established in Queensland. It is attracting great interest. With the depletion of world forests, it seems probable the manufacture of synthetic lumber will become one of the great industries of the future. In its cheapness, its wonderful insulating and sound-deadening properties and other advantages, it will go a long way, the British think, toward solving the housing problems of England and many of its colonies. The housing problem is especially acute in Australia which grows no soft timber and has to import all its building lumber at heavy expense from across the seas."

The Queensland Minister of Mines was so impressed with the artificial lumber that he made a special trip from Chicago to New Orleans in company with B. G. Dahlberg, president of the Celotex Company, to investigate the only plant in the world in which it is made at the rate of 500,000 feet a day.

LONDON, SLOW TO TAKE UP BOBBED HAIR, DROPS IT

LONDON, Aug. 14.—The bobbed and shingled style of hairdressing, which took an incredibly long time as compared with other fashionable centers, to percolate into London society, is going out of fashion with a run in this country.

Long hair is now all the rage here again, and this season's debutantes are taking so-called rest cures until their hair grows again and gets beyond the "straggly" and old end, stage.

Today, religious freedom remains among the fundamental law's sacred guarantees. Free men prize it above all else and guard it most jealously. They are wary, and rightfully so, of any movement or influence that tends to infringe upon it.—Denison Herald.

He's Not First Man To Do This

ORANGE, Aug. 14.—A man 28 years old appeared at the county clerk's office here and asked for a marriage license "for the sweetest girl in the world" (of course). Aside from that appellation, he couldn't think of her name!

"How long have you known the lady?" asked the clerk.

"Seven months" was the reply. "Here it is, all written out." But the clerk couldn't make out the handwriting, so the lady was called on the telephone. Luckily, the man knew her telephone number, and the girl remembered her own name.

Gushers Make Clean Sweep of Series at Waco

FOWLKES MAKES LONGEST DRIVE OF THE SEASON

WACO, Aug. 14.—The Mexia Gushers made a clean sweep of their series with Waco by winning both games of Wednesday's double header by scores of 3 to 2 and 8 to 3.

Manager Jack Shires was forced to shift his lineup quite a bit due to the fact that both Thrash and Red Hall were out of the game due to injuries. Meeks who hurled the first game for Waco was very dependable but lost his duel to Jeffries due to errors of commission by Lewis and errors of omission by others.

Lewallen, pitching ace of the Chilton team, was on the mound for Waco in the second game and his baffling delivery buffaloed the Gushers until the sixth and seventh when with the aid of home runs by Leedy and Fowlkes they ran across seven runs to win. Lewallen struck out 7 men in seven innings. Lothes was a star at the bat again getting five hits in six times at bat in the two games.

Young Jeffries, the youthful Mexia southpaw, who has been a persistent menace to the Waco cause all this season, made his farewell 1924 appearance against the Tribe, and despite the fact that he had already won the first game of the series, he hurled splendid baseball in the pinches to put over another win for the Mexia team.

Meeks Pitches Star Game

Meeks, a Mexia castoff, and later with the Marlin club was in the box for the Tribe and he pitched superb baseball, allowing only eight hits, some of which would not have gone as such with real outfielders on the job. With Jack Shires in charge of the club, following the release of Carson in order to cut down expenses for the balance of the season and with Thrash and Hall on the injured list, it was a makeshift line-up indeed, which the locals presented yesterday, Catcher Lothes being used at third, while Humphreys, another catcher, on second, and Red Hill, who as an outfielder, is a good pitcher, was in right. The visitors got two on in the first with none out when Geppert singled and went to third on Butler's double, but Meeks rose to the occasion and retired Jones, Seeley and Fowlkes in order.

Lothes who starred at the bat for the locals in both contests hammered in the first run of the game in the second inning, while Meeks' double and Lewis' single accounted for another in the third. Mexia scored two runs in the fourth on Leedy's double, followed by another to right by Naylor, the second being a high fly. Naylor went to third on a wild pitch and scored in the same manner. The winning run came in the fifth on an error by Lewis, followed by Butler's single to left. Lothes opened the ninth for the Indians with a double, but was left stranded, as Jeffries hurling in flawless fashion retired Hill, Meeks and Kelly in order.

Fowlkes Hits Longest Drive of Year

The second game was a brilliant pitchers' battle until the sixth between Outfielder Ned Seeley of Mexia and Jimmy Lewallen, pride of Chilton, who made his debut in a Waco uniform. And the Chilton star pitched a splendid brand of ball until the sixth, when with the Tribe leading 2 to 1, Gus Leedy connected with one of his fast ones for a home run over the left center wall with two on, thereby cinching the ball game. In the seventh the visitors made a race track out of the diamond, the game, the final one of the year between the two clubs, being climaxed by the longest home run ever seen at the local orchard in the two year history of the Association. It was Toughey Fowlkes, manager of the visitors who came through with the Ruthonian. That one wallop was well worth the price of admission. It was well worth the boresome three hours or more which had been spent at the park, for it is seldom indeed that one is given the opportunity to witness such a drive. Lewallen, the kid pitcher from Chilton, attempted to breeze one by the Mexia manager, but Fowlkes was set for the groover. He met the horsehide with a vicious cut and away it sailed, the ball landing on top of the Dr. Pepper sign in the furthermost corner of the park. It hesitated for a fraction of a second on the sign, then bounded on out of the park. It takes quite a wallop to even hit this sign, but it has been done on several occasions this year, but never before has a Texas association player here able to drive the pellet over this sign. There were two on at the time, the Gushers scoring four runs in this inning. Butler cut short an impending Waco rally in the seventh when he made a sensational catch of Hill's long drive after Lothes had singled. The latter, however, scored on Lewallen's hit, making the final count 8 to 3.

TOM M. CAIN
R. W. (BOB) STEEN

For County Treasurer—
MRS. LULA OATES, (re-election.)
H. C. FITZGERALD.

For Justice of the Peace, Pre. 4—
S. H. FLAKE
CHARLES L. CLOVER.

FOOT HEALTH TALKS
The Great Arch of the Foot

Have you ever realized that wrong posture in standing or walking may injure the arches of the foot? Or that weakness of the foot and leg muscles may reduce the resistances of the arch? Read what Dr. Scholl, eminent foot hygienist of Chicago, says:

By WILLIAM M. SCHOLL, M. D.

New theories and conceptions of the mechanical nature of the great arch of the foot are constantly arising. This is the large arch under the instep and is often considered as two. Re-statements of known conditions are constantly presented in the light of the investigator's own findings.

There could be no more fascinating study. One view likens the great arch to the true mechanical arch, such as the arch made of stones with its V-shaped keystone. But the arch of the foot lacks a keystone and is so formed as to yield under stress. It gives elasticity to the foot and absorbs the shock when the body comes into contact with the earth. It is brought into play in the exercise of the leverage motion of the foot in forcing the body upward and onward.

Another view likens the arch to a suspension bridge; the astralagus acting not as a keystone but as a reenforcing girder bridging two oblique piers.

The statics of the arch under pressure indicate that in distributing the body's weight it acts like a true mechanical arch. But though it functions as a mechanical unit we cannot overlook the major part played by the ligaments and muscles of the foot and leg in sustaining it. We cannot consider it as independent to the rest of the foot.

Good brisk walking in the open air is one of the best stimulants to the ligaments and muscles and helps them to resist the strain on the arches. Standing all day at one's work is not a substitute for walking. Some muscles are strained while others remain inert, not actively contracting.

It is more difficult to correct arches that have become flat, than weak arches. Various treatments are used in weak and depressed arches. Personally I favor the restoration of the arch by intelligently fitted arch supports to give temporary correction and muscular control, and have seen patients walk away in comfort. But the method of fitting is all important and not a little depends upon the advice given the sufferer.

The best time to correct foot troubles is before they begin. Wrong posture may injure the arches of the foot. Powerful mechanical forces are imposed upon the foot and the body weight should be so carried as not to place it at a mechanical disadvantage. The foot and shoe are speedily distorted by these forces when they are obliged to function improperly.

U. S. POLOISTS SHOULD WIN.

By FRANK GETTY

(United Press Staff Correspondent)

NEW YORK, Aug. 14.—America's polo four, which will defend the international challenge trophy at Meadowbrook, L. I., next month, rules favorite in the early betting over the invaders from the British Isles.

Man for man, and pony for pony, our team looks to be sufficiently stronger to warrant optimism that the cup which started on a series of trans-Atlantic voyages in 1886, will rest a little longer on these shores.

While the American internationalists may not be the strongest aggregation this country ever has put in the field, they do not fall far short of human perfection in team play, aggressive hitting and riding.

The team, as it probably will take the field, is:

No. 1—Eric Pedley, California
No. 2—Thomas Hitchcock, Jr.
No. 3—J. Watson Webb
Back—Devereu Milburn

Three of these poloists—Hitchcock, Webb and Milburn—are veterans of many an internatonal chucker; Pedley is a comparative newcomer, yet we find him at the difficult No. 1 position—a fixture, looked upon to lead the attack, together with the hard hitting Hitchcock.

Tommy is perhaps the greatest polo player in the world today. As No. 3 Webb earned his place after a struggle. Milburn has no peers as a back.

The British team is strong; the American one stronger; the polo—in which there seems to be a slight increase of popular interest—should be fast and worthwhile. The Prince of Wales is on his way to watch, and there are practically no tickets to be had.

Polo has become a democratic sport in England since the war. Before only those who were members of the club could watch. Now, anyone, with the price of a ticket, may look on. They call this "playing the gates", something the British poloists would never have thought of doing before the war and prohibition—which showed that some of our best, if not wealthiest, citizens made rattling good polo players, and some of our best polo players unexpectedly turned out to be bootleggers.

—o—

"Norah, why haven't you brushed down that cobweb?" "Cobweb?" Lor' mum, I thought that had somethin' to do with yer wireless." Boston Transcript.

The word "magnet" comes from the fact that the best specimens of lodestones comes from Magnesia, a city in Asia Minor.

Creosene Stops Sore and Bleeding Gums in 12 Hours

This new discovery is a pleasant penetrating liquid medicated with gum-tissue healing and germ-destroying ingredients used by the dental profession, which carries the medication direct to the roots of the teeth, relieving pain, tightening loose teeth, healing pus pockets and killing the germ that leads to pyorrhoea, thereby accomplishing at home in a pleasant way, all the good benefits of a treatment in the dental chair without the pain and expense. Recommended by Bennett's Drug Store.

Court Expert Quite.

LONDON, Aug. 14.—Herbert A. Trendell, regarded as the most versed man in the world in his knowledge of coure ceremonial and etiquette, is shortly retiring from his position as chief in the Ceremonial department of King George's household.

Some idea of the extent of his job may be gained from the fact that he has to have an intimate and detailed knowledge of more than 300 different court dresses suitable for all occasions by the people entitled to wear them.

THE STATE OF TEXAS

To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded to summon Wm. R. Ray by maning publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to be and appear at the next regular term of the District Court, 77th Judicial District, of Limestone County, Texas, to be holden at the Courthouse thereof, in Groesbeck Texas, on the first Monday in September, A. D 1924, the same being the first day of said month, then and there to answer a petition filed in said court on the 29th day of July, A D. 1924, in a suit numbered on the docket of said court No. 4695A, wherein Mrs. Wm. R. Ray is plaintiff and Wm. R. Ray is defendant, and said petition alleging: That plaintiff is and has been for a period of twelve months prior to the institution of this suit an actual bona fide inhabitant of the State of Texas, and has resided in Limestone County, Texas, for at least six months next preceding the filing of this suit; that plaintiff and defendant were married on October 24th 1923, and lived together as husband and wife until about December 1, 1923 when plaintiff was forced and compelled to leave defendant by reason of defendant's cruel and harsh treatment and improper conduct towards plaintiff; that during the time plaintiff and defendant lived together plaintiff was an ever dutiful and affectionate wife, but defendant, unmindful of his marital vows, and within three days after their marriage, began a course of unkind, harsh, cruel, and tyrannical treatment of plaintiff; that defendant stayed drunk practically all the time and constantly abused plaintiff; that on many occasions said defendant cursed and abused plaintiff and applied to her the vilest and most opprobious epithets, without any cause or provocation on plaintiff's part; that defendant often beat and hit plaintiff, twisted her arm, shook her severly, and struck her with his fist; that defendant's actions and conduct towards plaintiff are of such a nature as to render their future living together as husband and wife insupportable. Plaintiff prays that defendant be cited by publication and alleges that his residence is unknown to plaintiff; plaintiff prays for a divorce from defendant and that their marriage be dissolved; that her maiden name be restored and for costs of suit and for such other and further relief, special and general, in law and in equity as in the premises she may be justly entitled.

Herein fail not, and have before said court at its aforesaid next regular term, this Writ with your return thereon, showing how you have executed the same.

Given under my official hand and seal of said Court, at my office in Groesbeck, Texas, this 29th day of July, A. D. 1924.

(Seal) JOHNSON WAKEFIELD,
Clerk of District Courts
Limestone County, Tex.

Gilbert and Sullivan And Henry Ford

SLATER, O., Aug. 14.—Henry Ford has selected a few lines from light opera to instruct his railroad employees in chasing dirt.

The new watering station on the Detroit, Toledo and Ironton is the most beautiful building in this little village of less than 100 persons and apparently Henry Ford intends to keep it that way.

A landscape gardener has carefully graded and plotted the lawn. Framed in a conspicuous place inside the building are these lines from "Pinafore."

"When I was a lad, I served a term
As office boy to an attorney's firm;
I washed the windows, I scrubbed the floor,
I polished up the handle of the big front door."

NATIVE TEXAN HAS 85TH ANNIVERSARY

Was Son of Last Survivor of Battle of San Jacinto.

There was a notable birthday anniversary celebrated in Plainview Saturday evening when Captain Hampton Steele celebrated his 85th anniversary and among the guests were Mrs. Loretta Lamar Calder, daughter of Maribau Lamar, and Mrs. E. H. J. Andrews, daughter of Mrs. Calder.

The affair was held at the home of Mr. and Mrs. W. B. Rodgers, she being the daughter of Capt. Steele, southwest of Wayland College. A large Lone Star flag greeted the guests at the entrance to the yard and it waved proudly in the breeze.

The home was decorated with Texas flowers, mostly in red, white and blue colors, and on the wall was a picture of Capt. Steele's parents, and also of that hero's great-great-grandson, who was a soldier in the world war.

The dinner was abundant and delicious, being cooked and served in old country style by the daughter. It was a jolly party that partook of the repast.

Following the dinner, the guests gathered on the front porch, and recounted the incidents in the lives of Steele, Lamar, Houston and other Texas heroes in the war for Texas independence, and of the cry of the Texans after the Mexicans ran at San Jacinto, "Remember the Alamo," "Remember Goliad," and the cowardly pleading was "Me no Alamo," "Me no Goliad."

The guests were Mrs. Calder of Houston, Rev. and Mrs. E. H. J. Andrews, Mr. and Mrs. F. W. Brooks, natives of Grimes county, where the honoree was born; E. B. Miller and J. M. Adams, and Mr. and Mrs. Steele.

Mr. Steele is the son of Alfonso Steele, last survivor of the battle of San Jacinto, and claims to be the eldest native Texan now living. He was born in 1839 in Grimes county, and his home is now in Thornton, Limestone county, and he and Mrs. Steele are spending the summer here with their daughter, Mrs. W. B. Rogers. He says he is the only man in Texas who had a great grandson who served in the world war. His present wife is his third. He is the father of 14 children, 53 grandchildren, 59 great-grandchildren and three great-great-grandchildren. He does not appear to be more than 60 years of age, as he is so well preserved, ruddy complexioned and active. He is the president of the Native Sons of Texas Association, which has a charter from the State. His father was shot and wounded during the battle of San Jacinto, and several years ago, just before his death, went with A. J. Houston, son of Gen. Sam Houston, to San Jacinto, and pointed out the positions of the Texas and Mexican troops.

Mrs. Calder is the only daughter of Gen. Maribau Lamar, who commanded the Texas cavalry at San Jacinto, and made the famous charge. He was the first vice president and second president of the republic of Texas, and was the father of the State free school system. Lamar ward school in Plainview, was named in his honor. Mrs. E. H. J. Andrews is the daughter of Mrs. Calder, and Miss Calder of Houston, another daughter is spending the summer here.

The editor of the News is also somewhat of a Texan. His grandparents came to Texas when it was a province of Mexico, and fought in the wars against the Mexicans and Indians and freed the state. His mother and father were born in Nacogdoches county, and his mother, Mrs. R. A. Adams of Dublin will be 74 years of age in November. An aunt, Mrs. Margaret Standfield, died in McLennan county last year, age 93 years, having been born in Texas, in the famous Edwards colony. —Plainview Leader.

Hampton Steele of Thornton writes from Plainview that he is having a great time visiting in that section and praises the citizens there most highly.

MEERS NUMBER 1 NOW DRILLING AT 225 FEET

J. Meers was here today from Hubbard, near which place he is drilling a wildcat test. The test is now down 225 feet, is known as the J. Meers No. 1 and is on the Nathan Land, 100-acre tract. The Woodbine is expected to be encountered around 1,750 feet.

There are more than twice as many motor cars and trucks in Hawaii as in all China.

Million Persons Ill Daily Through Health Carelessness

THE alarming increase in infectious diseases throughout the country has stirred national, State and municipal health authorities to extraordinary activity to stem the tide of sickness and remove the causes of death. The officials seeking to prevent this wide spread of illness are calling upon the public to aid them in their fight, because most of the disease now rampant is

due mainly to public carelessness or neglect of ordinary precautions.

In the opinion of Dr. Herman N. Bundesen, Commissioner of Health in Chicago, there are on an average 3,000,000 persons ill all the time. He says that forty-two per cent of this illness is preventable, which means that every day there are over a million men, women or children shut in and suffering when they could be healthy and happy had they applied personal sanitary measures.

The recent announcement of the United States Public Health Service that smallpox has had outbreaks in thirty-five States has called attention to the fact that most of the cases of this disease are carried from one city to another and from one State to another by sufferers who fail to take proper protective measures.

It has been found that much of the communication of diseases is due to carelessness in the use of drinking vessels. An investigation in Chicago, reported to the General Health Bureau, gave the results of analysis of twenty common cups or glasses. Nine were taken from schools, three from hotels, five from railroad depots, two from stores, and one from a children's home.

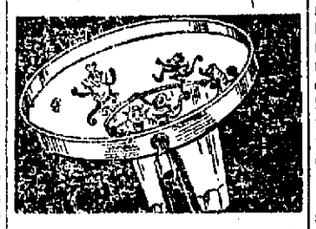
All of these revealed the presence of germs to a dangerous degree. It was evident that these glasses carried virus that would spread pneumonia, diphtheria, influenza and other general and contagious diseases. The Chicago bacteriologists infected guinea pigs with the germs so obtained. Five developed abscesses, six became very ill and two died, one of a pus infection and the other of typical diphtheria.

"It need hardly be said," concluded the report, "that the Commissioner of Health is heartily in favor of single-use drinking cups and that their value from a sanitary standpoint is beyond question."

Dr. Frank J. Monaghan, Commissioner of Health in New York City, says:

"When any one ill from an infectious disease drinks ice cream soda or any other drink at a public place, his saliva touches the glass. This glass if not properly cleansed will transfer the saliva and the germs through the drink served the next person. Thus, it does not demand any imaginative process to understand how the common drinking glass spreads infectious diseases.

"Avoid using the common drinking cup," he advises. "When you stop for a glass of ice cream soda or any other drink at a fountain where you can see how the glasses are cleansed, do not give your order if the cleansing is not properly done. At all public places, drinking glasses should be sterilized by being washed in hot soda solution, and then rinsed in hot



water. If this process is not used, then paper drinking cups should be used."

The common drinking cup, as pointed out in Bulletin No. 57 of the United States Public Health Service, when improperly washed between users is largely responsible for the communication of: tuberculosis pneumonia, typhoid fever, scarlet fever, diphtheria, tonsilitis, influenza, measles, infantile paralysis and colds.

Dr. Charles V. Chapin, of Providence, R. I., one of the most noted sanitarians of the country, says:

"Indirect contact is far more important than direct. Perhaps the use of a common glass for drinking is the best example of a mode of indirect contact. It was also the first which the public learned to appreciate and avoid. The common drinking glass is going, but unfortunately has by no means gone. Even if the Board of Health neglects to enforce the law against it, no one need use it. That is within one's absolute control.

There are many persons who will not water a horse at a public fountain for fear of glanders who will themselves drink out of anything."

Because of the agency of the common glass in the spread of the diseases that now are taking their toll in sickness and death the local health authorities are directing their first steps toward the detection of those violating the law forbidding its use.

Forty-four States have such laws, and these are supplemented in many cases by municipal ordinances. Because of the great number of public places, soda fountains, schools, railroad stations, theatres, hotels, restaurants and other places where these are used, it generally is impossible to cover the whole territory except at long intervals. For this reason most of the health boards are asking the public to aid them in their campaign by reporting such violations as come to their notice.

It is hoped through this means to remove the peril that lies in the path of children who are too young to discriminate or care, or adults who are thoughtless or neglectful of the comfort and health of others. Many civic organizations, such as the Parent-Teacher Association, settlement houses, Chambers of Commerce and other groups are working with health officials to eradicate the menace to health.

The application of united effort to this step, it is believed, will heavily reduce the illness that now needlessly claims one million persons each day.

Temple Being Renovated.

MIDDLETOWN, Conn., Aug. 14.—St. John's Masonic Lodge No. 2 has oversubscribed the amount estimated as necessary to make improvements in its present home and add a new lodge room. It was hoped to raise $40,000 and the enthusiasm of the brethren was shown by the immediate subscriptions amounting to $41,500.

A wedding was delayed recently because the bridegroom fainted. We understand, however, that the poor fellow was merciless revived.—Humorist, London.

Piles Are Absorbed Never To Return

After years of patient, painstaking effort on the part of a well known doctor, a prescription has been found that will actually heal piles and absorb them never to return.

No man or woman need suffer another hour with any discomfort, pain or soreness arising from rectal troubles—piles—now that this wonderful prescription, known as MOAVA can be obtained for a moderate price at any first class drug store on the money back if dissatisfied plan.

You'll be amazed to see how quickly it acts. Blessed relief often comes in an hour; even in cases of long standing with profuse bleeding, really wonderful results have been accomplished.

Simply ask your druggist for a small box of MOAVA SUPPOSITORIES, being careful to follow the simple directions that come in each box. (adv)

EVACUATION OF THE RUHR RUMORED IN LONDON REPORTS

ACTION SAID TO FOLLOW REPORT ON DAWES' PLAN

By the United Press.

LONDON, Aug. 14.—Reports are current that a full agreement has been reached on the question of evacuation by French and Belgian of the Ruhr valley.

This action is said to have followed the call of the allied conference on the Dawes report at 5 o'clock this afternoon when the Germans and allied experts were asked to be present.

What amounted to a virtual ultimatum was handed to Germany today when representatives of Great Britain, the United States and Italy joined hands with Premier Herriot of France on the plan for Franco Belgian military evacuation of the Ruhr within one year.

The decision was handed to the Germans with the demand that they reply to the agreement by 3 p. m. today.

The Germans are waiting an answer from Berlin before replying. They are resentful of the ultimatum-like character of the proposal, one member of the delegation intimated.

Old Settlers Party To Be Featured By Eating Home Brew

STAMFORD, Aug. 14.—Old settlers' party is scheduled here for Aug. 14, the entertainment being furnished by R. L. Penick, pioneer merchant at his country place on Lake Penick, three miles south of Lueders. Invitations have been mailed to 140 persons who have lived in this county more than 40 years.

A dinner of exclusively home-grown products wil be the feature of the day—barbecued beef, mutton, fish, country ham, and all that goes with such dished to make a real feast.

Each guest will be presented with a photograph of the gathering. Conveyance will be furnished for those unable to provide their own.

$30,000 To Be Given Away In Fair Races

DALLAS, Aug. 14.—Purses totaling $30,000 will be offered in the racing events at the Texas State fair here Oct. 11-26, W. H. Stratton, secretary, announced on his return from Chicago.

Racing events will be held daily except Sundays throughout the session, with entries from all parts of the State. Sportsmen from Chicago have signified their intention of placing several entries in the Dallas events, Stratton said.

Prizes in the four closing stake events have been tentatively agreed upon, and increased, but the amount has not been definitely announced.

The three-quarter track has been re-conditioned and improved by mixing fine gravel with the natural soil.

AGENTINE FLYER OFF ON LONG FLIGHT

By the United Press.

CALCUTTA, Aug. 14.—Major Zani Argentine airman, who is attempting an eastward flight around the world, hopped off here at 6:35 a. m.

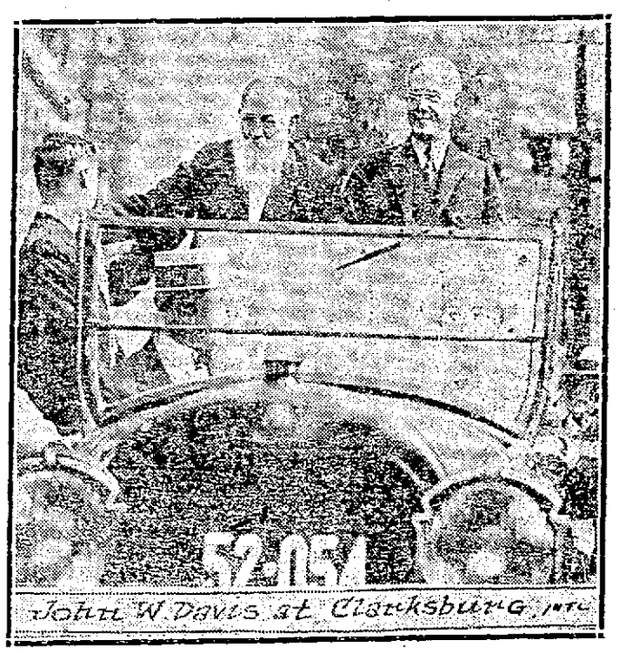
The next hop in the flight will take Zani to Rangoon. He attempted to make the flight Wednesday, but was forced to call it off owing to tire trouble.

G. A. R. POST WITH ONLY FOUR MEMBERS GIVES UP

SCITAUTE, R. I., Aug. 14.—Nichols Post, G. A. R. has disbanded, following the course of many such institutions in the heart of old New England that once were the pride of their villages.

Nichols Post in its palmy days had 50 members; now it has but four, and they are too feeble to attend to lodge duties. But the members declare the real reason for surrendering their charter is the fact that their meeting place is to be torn down to make room for a new reservoir for he City of Providence and no other meeting place is available within a reasonable distance.

JOHN W. DAVIS WILDLY GREETED IN HOME TOWN.



John W. Davis, Democratic Presidential nominee, received a wild greeting when he returned to Clarksburg, W. Va., his home town, to receive the official notification of his nomination. He is shown here in a motor car with Colonel John C. Johnson, Clarksburg's oldest citizen, who, many years ago, taught Mr. Davis the first principles of democracy.

MYSTERY LURKS AROUND STORY OF WOMAN'S MURDER

By HAROLD SWISHER
(United Press Staff Correspondent)

LOS ANGELES, Cal., Aug. 14.—Upon the questioning of his sister may rest the fate of Norman Selby, better known to sporting circles as "Kid McCoy," under arrest for the death yesterday of Mrs. Theresa Mors, beautiful and wealthy antique dealer.

Besides a suspicion of murder charge, the former welterweight champion of the world is charged with wounding three persons in Mrs. Mors' shop, where he went on a shooting rampage that led to his arrest before the police had learned of the death of the wealthy shop owner.

In the background of the mystery is the end of McCoy's tenth marital plan. He was Mrs. Mors' protector, had lived at her apartment, and according to his own words, planned to marry her. He had been married nine times before—three times to one woman—and had been nine times divorced.

McCoy first denied killing Mrs. Mors, insisting she had killed her-

(Continued on Page 2)

Waco Masons In Mexia Wednesday

More than 100 members of the four Waco Masonic lodges gave the master's degree for the Mexia Springfield Masonic lodge in Mexia last night.

The Waco delegation left the new Masonic temple at Eighth and Washington streets late yesterday afternoon and returned early this morning.

Members of the Waco Blue Lodge Certificate Men's association were in charge of the ceremonies. L. A. Nelson was chairman of the degree team, L. E. Studer directed the trip.

On arrival in Mexia shortly after 7 o'clock the Wacoans were given a banquet. Dance and other froms of entertainment were dispensed with so that the local men could return last night.

Masons of Mexia greatly appreciated the visit and crowded the Masonic Temple until a late hour.

BOY GIVES BLOOD TO SAVE HIS MOTHER

SAN ANTONIO, Texas, Aug. 14. Mrs. Lucille Griffin was slowly beating back to health in a hospital here today as the result of blood transfusions volunteered for by her three sons, the eldest twelve. The transfusions were deemed necessary to save the life of the mother, suffering with complications of diseases.

Cutting Corners Threatens Lives Daily In Mexia

The practice of cutting corners continues to be a menace to public safety of pedestrians and rider alike in Mexia. Hardly a day goes by but that reports are not made of accidents or near accidents because of this uncalled for hurry. Tuesday night at the corner of Bonham and Commerce streets, when traffic was heaviest, a car coming down Commerce met another which cut the intersection, the two jamming with a force that was apparent that only an accident kept it from being a serious accident. Both were crowded and the lives of several were endangered. The car guilty of cutting the corner was not badly enough damaged to put it out of commission or to stop the engine and wihout leaving any address hurried on towards Ross avenue, while a crowd quickly gathered around the other car to find that it had suffered only a broken fender but wih none of the three inmates injured.

GUSHERS RETURN HOME.

Tuffy Fowlkes and his rampaging Gushers came back to the old ball orchard last night and will engage Otto McIvers Rangers in a four game series. The Gushers made their last trip to Waco and came back with the Indians' scalps hanging from their belt and they were more joyous at heart than one can imagine. Lefty Jeffries was the one to get the sweetest revenge on the Indians as he lost a 16-nning thriller here to the Carson crew and he laid them low in the dust in two games of the series. Then, also, some more left handers come in for credit of two more of the games. Lefty Snow gets credit for the third game when he relieved Peel who was getting in hot water. Then last, but not least came "Moco" Big Ned Seeley from Greenville, who holds down an outfield position and camps under most of the balls sent out his way, walked into the box and "fooled" the Corsicanaites with his wronghanded offerings.

Well, if the Indians did not see enough left handers in the past series, they never will. John Paul Jones gets credit for the winning of the second game, but Lefty Snow played relief pitcher that day when the Indians threatened to make things interesting and breezed on through.

At this moment we are unable to find the box scores of the first game which Jeff won but with the last four games we have figured up that the Gushers scored 2 8runs off of 42 hits and made only three errors while the Indians scored 15 runs off 29 hits and made 14 errors. The 42 hits totaled up to 64 bases there being five home runs, seven two base hits, and 30 singles.

Carl Hill is likely to be Fowlkes' choice for mound duty while Otto McIver has not whispered who will work for his Rangers.

Today is also ladies' day and all of the fairer sex are will be admitted free.

DEADLOCK HOLDS CONFEREES IN MEETING IN LONDON

By LLOYD ALLEN,
United Press Staff Correspondent.

LONDON, Aug. 14. — Deadlocked over the date for military evacuation of the Ruhr, conferees on the Dawes reparations plan again turned to Anglo-American mediation to iron out the situation.

Hope for breaking the tangle which revolves about the demands of France and Germany, today depended upon a meeting between Prime Minister MacDonald and Ambassador Kellogg of the United States. Optimists were confident this meeting would provide the solution.

The present deadlock lies in the French and German divergency upon whether the Ruhr is to be evacuated in a few months or at the end of a year. Germany demands a fixed date, preferably six months. France has been unable to give a definite plan.

A meeting of the heads of the various delegations was called at No. 10 Downing street at 10 a. m. today. They met for an hour when the German delegation was invited in. The Meeting broke up in 30 minutes and when they came out the German conferees were asked whether there was a chance of a rupture.

"I cannot see who can afford to break," he said.

SUPREME COUNCIL WILL MEET IN CHARLESTON THIS YEAR

WASHINGTON, Aug. 14. — The next meeting if the Supreme Council, 33rd degree, A. & A. S. R., S. J., will be held in Charleston, S. C., beginning Wednesday, Sept. 24 at -0 o'clock. The meeting this year has an unusual sentimental interest in that this Supreme council, which is known as the "Mother Supreme Council of the World," and from which all other supreme councils receive their recognition and warrant, was established in Charleston, S. C., on May 31, 1801. Today Scottish Rite Freemasonry covers the world.

According to the regulations of the Supreme Council the annual meetings in the add years are held at the House of the Temple, Washington, but the other cities. In 1920 the meeting was meetings in even years are held in held in Colorado Springs, Colo., and in 1922 at Salt Lake City.

Elections to the honor of the thirty-third degree are held only at the Washington meetings.

YOUNG MAN PLEADS GUILTY TO FORGERY

A young man, giving his name as Floyd Smith, and his home as Kosse, was arraigned before Judge Kennedy's court at 2 o'clock Wednesday afternoon on two charges of forgery and passing a worthless check to local merchants.

Smith plead guilty to all the charges filed against him, and was bound over to the November term of court. His bond was set at $500 in each case.

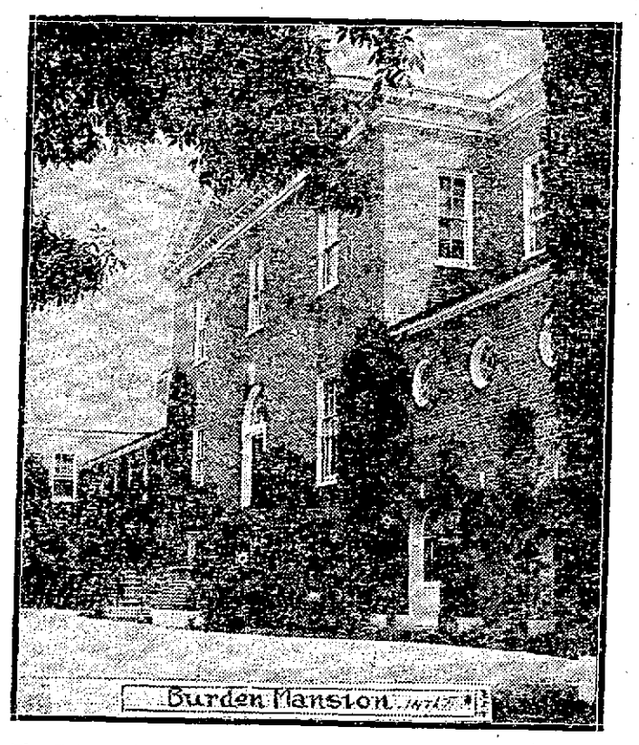
13,000 DIE IN FLOOD IN CHINA PAST YEAR

PEKIN, Aug. 14.—Flood deaths in China have not bene increased since July 15, according to announcements made by the International Famine Prevention Commission. Statistics show that thirteen thousand persons were killed by drowning and under collapsed buildings the past year.

LIGHTNING HITS BIK OIL TANK

CORSICANA, Aug. 14.—Approximately 1,800 barrels of crude oil was destroyed by fire after lightning struck a 55,000 barrel oil tank at the Magnolia Petroleum Company tank farm here during a thunderstorm yesterday. The fire burned itself out during the night. Damage to the tank was the greatest loss, officials said, as the oil destroyed was "green." No estimate of the loss was made.

BURDEN MANSION FOR PRINCE OF WALES.



The Prince of Wales and his suite will occupy the country estate of Mr. and Mrs. Abercrombie Burden, at Syosset, Long Island, a few miles from Glen Head, during his stay in New York to attend his stay in New York to attend the international polo matches in September. The Burden estate is one of the show places on Long Island, its gardens being equal to any in America.

Uncertain Goal Awaits Fliers Off Greenland Shores

RETJAVIK, Iceland, Aug. 14.—An uncertain goal awaited the American fliers here preparing to hop off from here today for the east coast of Greenland near the port of Angmaksalik.

After all plans had been made for the flight to be started at 8:00 o'clock today word was received from the Danish steamer Gertrude Rask that heavy fogs again surrounded Greenland. The ice packs had become worse and there was again some question of whether the fliers would be able to make a landing.

Immediately after this word was received, Admiral Nagruder, who is in charge of the flight, and Lieut. Lowell Smith, flight commander, went into conference.

Lieut. Smith wants no more delay in his flight homeward and announced that provided everything seemed safe around here the flier would attempt to get away sometime today.

The fliers will be guided by the weather at Anmagsalik. If the weather permits, the filers will land in the Greenland waters, refuel and hop right on again. Otherwise, the fliers will attempt a landing at the Greenland port and await better weathere for the next leg of their journey.

Keys' Condition Worries Friends

At the beginning of the Rotary luncheon today, word came that I. W. Keys was in pretty serious condition at his home on Ross Avenue. Messrs. A. H. Berry and A. H. Eubanks left at once for his bedside. They found him suffering from what was thought to be a mild apoplectic stroke. He had just been to San Antonio with his family. Mrs. Keys and the baby returned by train and he drove through the country back home. This morning, he had a fainting spell which caused him to fall and bruise his face quite a good deal. Doctor T. F. Oates was called. President Eubanks of the Rotary club announced that he was not as serious as thought at first, nevertheless his condition was such as to give the Rotarians much concern. L. S. Patterson, chairman of the program committee, cut the program short on account of the announcement. The many friends of Mr. Keys hope that he will soon be up and out again.

T. P. TRAIN RUNS OVER MAN.

FT. WORTH, Aug. 14.—Believed to have been asleep on the tracks, a man, giving the name of Bill Haney, died in a hospital here last night shortly after being struck by a Texas Pacific train.

ROTARIAN BERRY HEARS ADDRESS BY HEAD OF CLUB

Albert H. Berry, of the Mexia Rotary Club, represented the local organization at a meeting Wednesday night at Dallas where Rotarians from this district heard an address by the president of Rotary International, Everett W. Hill, of Oklahoma City. Mr. Barry states that the occasion was inspirational and a great address was delivered by the speaker of the occasion. A large gathering was present, many Rotarians from many clubs joining the Dallas contingent around the banquet board.

Mr. Hill stressed the power of Rotary for good. He talked of the place of the individual in a club and the relation of the member to the success of the organization. He pointed out the six objects of Rotary and said that the program for the year would be centered around these principles.

"Hate, greed, envy, and fear are four furies that destroy happiness in the world," he declared. "To rid us of these furies we need the power of good the Rotary exercises. A spreading of the gospel of Rotary will eliminate national prejudices.

"To encourage and foster the ideal of service as a basis of all worthy enterprises is not a new idea but a restatement of the Golden Rule, as applied to business.

"Rotary encourages high ethical standards in business and professions and each member who represents his trade should carry the teachings of Rotary into his craft.

"The application of the ideal of service by every Rotarian to his personal, business and community life is the living of Rotary.

An Opportunity for Service.

"The object of Rotary is to develop acquaintances among members as an opportunity for service. Rotary also teaches the recognition of the worthiness of all useful occupations and the dignifying by each Rotarian of his occupation as an opportunity to serve society.

"The advancement of understanding, good will and international peace through a world fellowship of business and professional men united in the Rotarian ideal of service is the final and all inclusive object of Rotary. The accomplishment of this object will make possible the overcoming of international boundaries and selfish misunderstandings," Mr. Hill said. He closed with a quotation by John Temple Graves.

THE WEATHER

Mexia and vicinity, unsettled, local showers.

ATTACK MADE AS ACT OF REVENGE AGAINST PASTOR

By the United Press.

NIAGARA FALLS, Aug. 14.—The First Baptist church of this city, located in the heart of the business district, was bombed this morning. Windows of the church were blown out and buildings across the street from the edifice were damaged.

Police are working on the case, with clues to guide them to a gang that is believed to have planned and carried out the bombing as an act of revenge against the pastor, Rev. C. B. Mercer, who is the leader of several crusades here.

Four Matches To Be Played Today On Golf Course

Much excitement prevailed at the Mexia Country Club Tuesday afternoon when about 40 aspirants to the beautiful loving cup given by L. S. Patterson of the Patterson Jewelry Company gathered together for the initial tryout. The hot August sun was at its best and had the thermometer hovering above he 100 mark, but the sweltering heat did not hamper the spirit of the golfers who went into the game to win the trophy. The course is now in fine shape, nearly all the fairways are baked almost to the hardness of dried cement, and a delicate tap rolls the ball to kingdom come. A low line drive and the ball hurdles everything in sight. The distant markers along the boundary go by like telegraph poles past a speeding train. Those who are taking their daily dozen at the golf course after business hours are enjoying the fine condition of the greens and are improving their score day by day.

The first tryout eliminated all but the sixteen following names: Estol Everett, L. S. Patterson, John Sanders, Val Horn, Allen Hatch, Gene Sinclair, T. F. Morrow, A. H. Eubanks, John Cook, Roscoe Cook, Alex Bristow, D. W. Harris, J. L. Hearne, Clay Berry, E. Watson, Sr. and E. M. Hitt.

Wednesday afternoon with Old Sol behind the cloud and the course drenched by a downpour of rain earlier in the day, saw all but one back for the matches in which half of them would be put out of the running. In the eight matches the winners were as follows: L. S. Patterson defeated Estol Everett, John Sanders defeated Val Horn, Allan Hatch defeated Gene Sinclair, T. F. Morrow defeated A. H. Eubanks, John Cook defeated Roscoe Cook, Alex Bristow defeated D. W. Harris, J. L. Hearne won over Clay Berry by default and E. Watson, Sr., defeated E. M. Hitt.

There will be four matches this afternoon in which L. S. Patterson will play John Sanders, Allen Hatch will play T. F. Morrow, John Cook will play Alex Bristow and and J. L. Hearne will match E. Watson. The weather is fine for the match and a large crowd is expected out to see who will be in the finals. It is planned to have the four winners in Thursday's game to play off their match Friday afternoon, and possibly the finals will also be reached, but it is now expected that the finals will not be played before Saturday afternoon.

The magnificent loving cup which stands fifteen and a half inches high is a prize to be highly valued and it is something that can be shown with pride for many years to come. The cup has been turned over to the Golf Committee to be presented to the champion in the final playoff. "Pat" Patterson is still in the running himself and looks like he has a good chance at the finals, but anyway he is going to make his competitors do their best playing to keep him from winning back his own cup.

ADMIRAL BULLARD MOVES HEADQUARTERS AND KEEPS SILENT AS TO CAMPAIGN

By the United Press.

WASHINGTON, Aug. 14.—Admiral Frederick Bullard Commandant of the United States Guard has temporarily transferred his headquarters to "Jersey Coast" to assume personal charge for the coming offensive against rum runners. It has been learned that greatest precautions will be maintained to guard his whereabouts and to keep secret his plans for the drive.

MYSTERY LURKS AROUND STORY OF WOMAN'S MURDER

(Contiued from Page One)

self in the apartment, where the two had been living together as man and wife, following Mrs. Mors' recent divorce from her husband.

However, a note delivered anonymously to Captain of Detectives Herman Cline said that the pugilist had visited the home of his sister early yesterday morning and told her he had "shot the only woman he ever loved."

Disrtict Attorney Asa Keyes has summoned McCoy's sister, whose name is being withheld, to appear at his office today and hopes, thru questioning her to tighten the chain of evidence around the former fighter.

Through long hours of grilling last night McCoy stuck to his story that Mrs. Mors had committed suicide.

"I wouldn't have killed her," he cried. "I loved her. She is the only woman I ever really loved. Why would I have killed her?"

The first knowledge of Mrs. Mors' death was obtained by police when the former pugilist emerged from the woman's antique shop with a revolver in his hand, after going on a shooting rampage and wounding three occupants of the shop.

According to the story told by McCoy's victims the shop had just oponed when the fighter entered. William C. Ross, a millionaire manufacturer and friend of Mrs. Mors; V. C. Emden and Sam Stern, an auctioneer, were present.

Walking into the shop, McCoy looked around, then suddenly pulling a revolver from his hip pocket, ordered the men to back up against the wall and remove their clothing.

He appeared to be greatly excited and in a nervous, jerky voice warned the three people he would kill them if they attempted to leave. While the men were undressing McCoy picked up a drinking glass and hurled it at Stern.

Six other persons entered the shop in the meantime and the pugilist ordered them to line up against the wall with the others.

McCoy turned his attention from his victims a moment and Ross darted towards the door. McCoy shot him and he fell a few feet from the door.

Then the seemingly crazed man turned his revolver towards the others still standing against the wall and fired four shots at them and wounded Mr. and Mrs. Samuel Schapp, two of the party of six who started in at the noise of the shooting.

McCoy ran from the shop and was arrested a few minutes later when a policeman saw him with the gun still in his hand.

Shortly after his arrest, police learned of Mrs. Mors' death from her maid, who found her lying on the floor of her apartment with a photograph of McCoy clutched in her hand.

No revolver was found in the room, police said, and, according to them, the bullet which killed Mrs. Mors was one of the same calibre as those used in McCoy's revolver.

While police sought a plausible motive for the killing the dead woman's huband notified police he was ready to give himself up in the event he should be suspected of any connection with the death of his wife.

McCoy was sullen and defiant when police arrested him and at first refused to answer any of their questions.

Later he told several different stories, all relating to his affairs with Mrs. Mors but insisting she had killed herself.

Notes found in the dead woman's apartment of an endearing nature and signed "Sam" may lead to the arrest of another man in connection with the murder, police said. That this man whose identity police have been unable to determine may prove the motive of Mrs. Mors' murder, police believe, on the grounds of jealously on McCoy's part.

A coroner's inquest over the body will be held Friday.

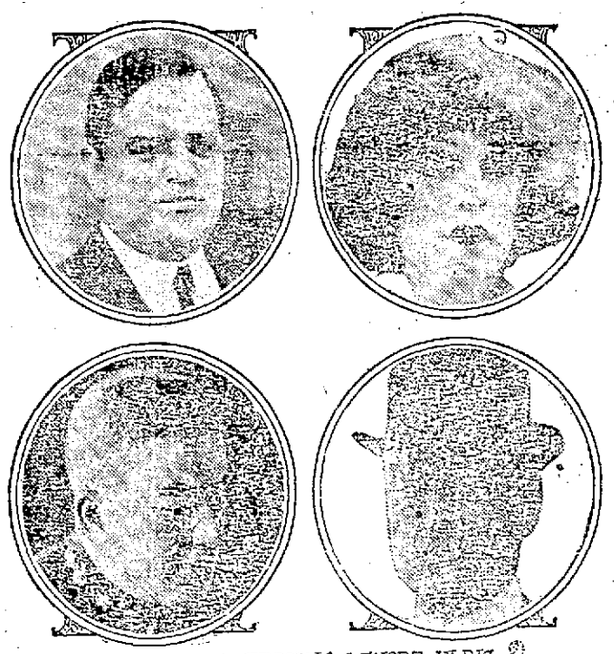
Meantime, funeral arrangements are being made by Mrs. Mors' mother.

OIL PRODUCTION

The American Petroleum Institute estimates that the daily average gross crude oil production in the United States for the week ended August 2 was 2,005,100 barrels, as compared with 2,006,600 barrels for the preceding week, a decrease of 1,500 barrels. The daily average production east of the Rocky Mountains was 1,376,800 barrels, as compared with 1,283,400 barrels, a decrease of 5,600 barrels. California production was 628,300 barrels, as compared with 624,200 barrels, an increase of 4,100 barrels.

FOR SALE—Shack house, 14x28, partitioned into 3 rooms. Will sell for $100.00 cash. Must move it off lot in next 30 days.—E. J. Ormsby, Pioneer News Stand. 14J2

CHIEF FIGURES IN THE NEWS OF THE DAY



Above—FIARELLO LA GUARDIA & LENORE ULRIC
Below—ADMIRAL W.L. RODGERS & ROBERT P. SKINNER

Robert P. Skinner, Consul-General to London for ten years, has been transferred to the same post in Paris, succeeding Alexander M. Tackaras, who retires for age. Fiorello H. La Guardia, Republican Congressman from New York City, has announced that he will support the La Follette-Wheeler Presidential ticket. Despite the pleas of her manager, David Belasco, that she remain single, beautiful Lenore Ulric, who scored such a success in "Kiki," is reported engaged to Sidney Blackmer, Broadway matinee idol. Mrs. Leslie Carter and Ina Claire are other Belasco stars who defied the tradition to marry and who survived his wrath. Admiral W. L. Rodgers, U. S. N., retired, speaking before the Institute of Politics in Williamstown, Mass., urged America to arm to defend its present immigration policy, and to seize territory from other nations, declaring this country will surely wage a war of aggression when its population reaches 200,000,000.

FROM THE PEOPLE

El Dorado, Aug. 11, 1924.

Editor News:

We left Mexia Thursday morning on 5:35 train. After a short stop in Dallas we arrived here Thursday night over the T. P. and M. P. roads. The cotton crop looks very well about Mesquite and Forney but from Pilot Point to Texarkana the corn crop is a failure and cotton will average about one bale to 20 acres. The drouth prevails here as it does in Texas and crops are short.

El Dorado continues to grow. They now have 30,000 population and still building in every direction. The new Methodist and Baptist churches, the Garrett and Randolph hotels, high school buildings and many of the beautiful residences would be a credit to a city of 50,000 population. The streets are made beautiful by great oak, pine and sweet gum shade trees and they tell me the lightning never strikes a sweet gum tree.

This is one of the greatest oil fields of the world.

95,000 barrels go out every day in tank cars and through pipe lines, besides what the two refineries use up. The Crusader Pipe Line Co. has entered this field. They are building a pipe line to Baton Rouge, La., have established their own banks here and will make business lively in competing with the Standard.

I attended Sunday school and church services in the magnificent new Methodist church that cost $150,000. They showed this Texas preacher every courtesy, had me to make a talk to the Bible class in the Sunday school and conduct the opening services at the preaching hour.

Friends are very kind in showing us the city by day and by night and to be sure we are having a royal good time.—G. W. Kincheloe.

"The ENEMY SEX" with Betty Compson
A JAMES CRUZE PRODUCTION

My Word! One Must Be Dressed Just So, Y'Know!

LONDON.—There has been a bull market on spats, yellow gloves, top-hats and walking-sticks during the American invasion of London this summer.

The advertising men and members of the American Bar Association almost exhausted the supply of "toppers" in some of the hatteries in the fashionable shopping districts. In order to be properly dressed at the Buckingham Palace garden party, and other functions in honor of the Americans, it was necessary, of course, to have a silk hat. A few of the lawyers brought "toppers" with them, but most of them waited to buy one here.

At the Buckingham Palace garden party, Judge J. Crawford Biggs of North Carolina did not wear spats and did not carry a cane, and, by a coincidence, neither did the King. Therefore, Judge Biggs has been hailed by London newspapers as the man, Britisher or American, "with fewest sartorial imperfections" at the party. The reason Judge Biggs wasn't perfect, was that he happened to wear yellow gloves, whereas, the King wore grey ones.

SPORT TABLOIDS.

CHICAGO, Aug. 14.—Sixteen players in the Western Junior gold championship remained today for the second round of match play. George Nickle of Chicago continued the favorite to win the tournament, coming through the opening round with an easy win.

CHICAGO, Aug. 14.—A traffic jam checked a taxicab in its race wwith the stork and when it reached the hospital with Mrs. Herbert Gustofason, the passenger list had increased 10 per cent.

BERWIN, Ill., Aug. 14.—Mrs. Rebecca Ruberham, 66, and Frank Smith, 70, obtained a license to marry. The bride is the mother of Beryn's mayor. Her hair has been freshly bobbed for the wedding.

THE BABY

How Long Is the Band Required?

The snug flannel band, not usually more than three or four months. In healthy infants with plenty of fat this may be replaced by the knitted band, which may be worn up to eighteen months. The band is an important article of dress in case of thin infants whose abdominal organs are not sufficiently protected by fat. With such, or with those prone to diarrhea, it is often advisable to continue the band until the third or fourth year.

Summer Clothing.—Only the thinest gauze flannel undershirts should be worn, and changes in temperature should be met by changes in the outer garments. The greatest care should be taken that children are not kept too hot in the middle of he day, while extra wraps should be used morning and evening, especially at the seashore or in the mountains.

SURPRISE PARTY GIVEN MR. AND MRS. FRANK IRWIN

The home of Mr. and Mrs. Arthur Bonner was the scene of a very pretty and enjoyable surprise party given on Tuesday evening, by the friends of the newly married couple, Mr. and Mrs. Frank Irwin.

An artistically woven pink and white color scheme was carried through even the finest details. Beautiful baskets of pink and white Vincas were placed about the suite, making a very artistic setting for he party. A delightful musical program was given by Mesdames Sergent Schoche and Bost which made it a most perfect affair, after which refreshments of brick ice cream, cake and marshmallow mints were served.

The happy couple were recipients of many beautiful presents and wished a long and prosperous life by their many friends.

John Prickett is a Dallas visitor since Wednesday.

WATCHING THE SCOREBOARD.

Yesterday's Hero.—Charley Gruien, Pirate first baseman, tripled in the sixth inning and drove in the run that broke the tie and helped beat the Giants, 4 to 2.

After losing the first game, 8 to 4, the Athletics went eleven innings to beat the Tigers 8 to 7 and pulled them out of first place.

The Yonkees crawled back into first place by taking a double header from the Browns 1 to 0, and 2 to 1 behind the good pitching of Pennock and Bush. Ruth got one hit in seven times up.

Bunched hits in the first and sixth innings gave the Indians a 5 to 1 victory over the Senators and moved them up a place to fifth position.

The Red Sox took a double-header from the Athletics 6 to 0 and 4 to 1 and moved from the cellar to seventh place.

Yesterday's home run hitters. Hole, Athletics, 1-1.

FIGHTS AND FIGHTERS.

NEW YORK, Aug. 14. — Good weather today made favorable the chances of staging the Louis Vicentini-Jack Bernstin lightweight bout in Brooklyn tonight. The bout was postponed from Monday night on account of rain.

NE WYORK, Aug. 14.—Changes in betting on the Firpo-Wills fight were reported by several Wall street commissioners. Wills had been the favorite in the early offers but a flood of Firpo money changed the adds to 11 to 10 on the South Amreican.

FOR SALE—at a bargain one 6-room house, double two story garage on two lots, about 4 blocks city hall, on East Main, for price and terms, P. O. Box 328. 14J2

Earl Fleharty was a visitor from Sweetwater today.

YOU HATE TO LOOK AT A PIMPLY FACE

There is perhaps nothing more distressing to people who are bothered with them, and surely nothing as displeasing to others who see them, as pimples, blotches, bumps, rash, scrofula, eczema, "breaking out" and similar skin disfigurers.

But now that Black and White Ointment, and Soap, are proving to be so dependable in quickly getting rid of these diseases of the skin, it seems foolish for people to neglect using them and making themselves attractive to others instead of being slighted all the time.

All dealers have Black and White Ointment, and Soap, in the convenient, low-priced, liberal packages. The 50c size Ointment contains three times as much as the liberal 25c size. —(Adv.)

The Little Red Hen

"Puck, puck, puck, puckAYah," cackles the little red hen, as she steps off the warm nest, broadcasting to the barnyard that she has just laid a fine, fresh egg. She makes a product that any "manufacturer" might be proud of, and doesn't hesitate to advertise the fact.

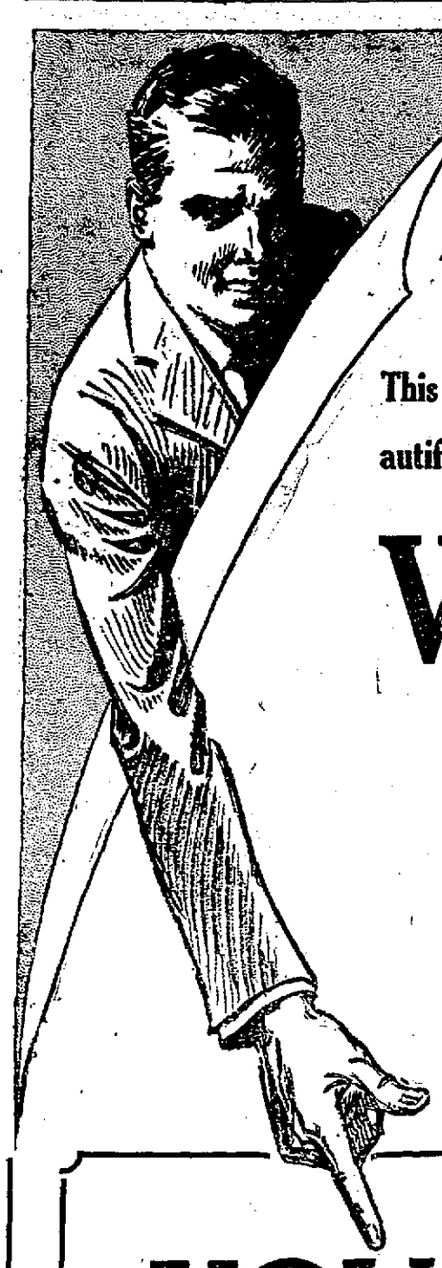
A duck egg might be just as good, but the duck evidently doesn't think so. She doesn't advertise, and duck eggs have no market.

To be absolutely sure in buying ANY merchandise stick to the advertised brands. For their manufacturers believe in them and tell you about them daily in the advertising columns of this newspaper, over their signatures.

The duck-egg brands might be just as good, but you cannot be sure, if the manufacturers themselves will not admit it!

Read the advertisements regularly. Buy from them. You will then know the source of the products, and whom to look to if they don't measure up.

Advertising is the radio of commerce—broadcasting things you should know.



The Question Of The Universe

This Bible—this miraculous Bible—this Book of All Books---luminous with the light that dwell-eth not on land or sea—this noblest and most be autiful Thing in all the world—what is it---whence cometh it—what means it?

WHAT HAS IT DONE?

It has made and unmade Nations. It has uprooted Kingdoms and Empires. It has diverted the mighty tides of History. It has crumpled ancient Faiths and Superstitions. Because of it fell Pagan Rome. The antique Systems of India and the Far East have bowed their heads to its enlightened sway.

China and the Orient now first awaken from their sleep of thrice a thousand years, and follow their sister nations of the Occident—whose feet are guided by one sole lamp—the sacred flame of which was kindled by the inspired Hebrew Prophets, and fed for all time by the Lord and Master of the Golden Rule.

Only ignorance scoffs at the Bible! The greatest rulers—the greatest statesmen—the greatest scholars—writers—orators—scientists—soldiers—and the untold milions of the Common People, whose collective genius outweighs them all—have thrilled to its Divine Wisdom.

Its lyrics of unfathomable tenderness—its orations of compelling potency—its contemplative prose of preternatural grandeur—have never been equalled. Its emotional depths and its intellectual heights make it the one and only Book of Books, vouchsafed for the guidance of mankind throughout the ages.

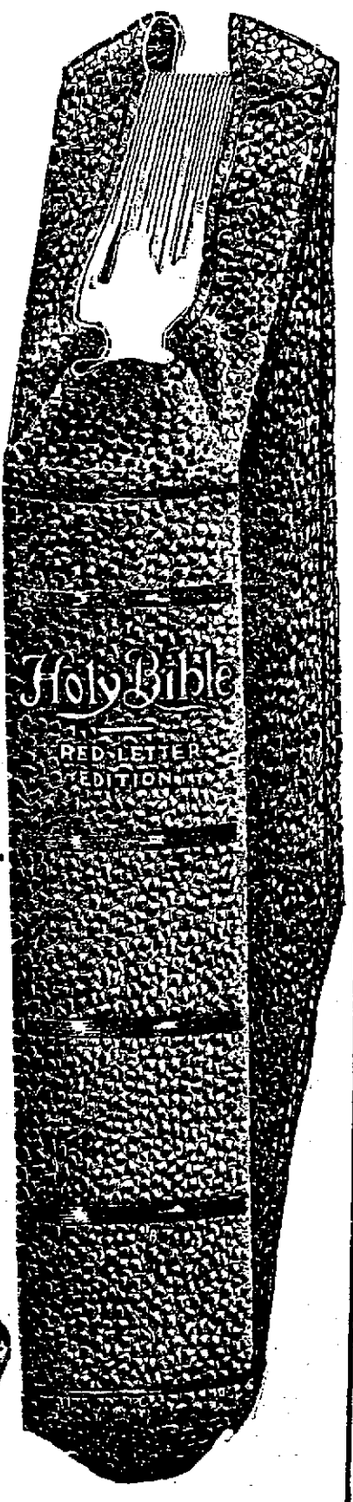
BIBLE DISTRIBUTION

Following the most distressing period of unrest the world has ever known, comes a world-wide revival of Bible reading, which must tend to ameliorate the unrestful conditions of mankind. To encourage such an end, leading newspapers througout this country have joined forces to promote the distribution of the great Book of Books, and have adopted a plan that should readily place the Bible in the hands of every reader. Two exclusive editions have been chosen for this purpose—first, the famous large print Red Letter Bible, illustrated herein, and a beautiful plain print, medium large type edition that will be distributed for a nominal sum by the News Publishing Co.



EVERY READER MAY HAVE THIS BIBLE

by taking advantage of the plan explained below and set forth in the Bible Coupon printed daily on another page of this newspaper.

Entered as second-class matter, February 26, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

"For Mexia, I WILL"

CAN'T FIGHT INTOLERANCE WITH INTOLERANCE

The injection of the Klan issue into Texas politics has not been a source of much surprise to any one, if any at all. For the past two years, the contest, similar to that being waged in Texas today, has been going on in neighboring states and in sister states of the American Union. Sometimes it is possible for one state to learn something from another state and from what has been going on in Oklahoma, Louisiana, states of the East and far Northwest, one is convinced that there are bigots everywhere and on both sides. There are the honest and there are the dishonest in Texas today just as there were in the other states and just like there always have been in Texas. We have men in this fair land who seek to capitalize the Klan and others who seek to capitalize the anti-Klan. The object of the antis generally is to conceal the real issue which is prohibition.

In speaking in this vein of thought, Jared Y. Sanders, Governor of Louisiana, before the National Democratic Convention in New York, while opposing mentioning the Klan in the party's political campaign, said:

We have a State settled by the French, owned and governed by the Spaniards, thence back beneath the Tricolor of the French Republic, until the great founder of our party, acquired it and added an empire to the Thirteen Original Colonies.

We have French and Spanish and English and Irish and Scotch; we have a tremendous Catholic population and a large Protestant population, and also a fair sprinkling of the dispersed of Israel.

But when we tried several months ago to capitalize the passions and the prejudices of men, when a candidate took the field in Louisiana appealing to race and religion, backed by the State and City Government, backed by practically every newspaper in Louisiana, there were some of us who thought that above Klan and above anti-Klan there was true Americanism (applause) and a candidte ran for Governor in our state on the broad principles of religious freedom, of tolerance, of decency in Government, and he refused to proscribe any man for conscience sake, and drew the line on no order of any description, stating that he submitted his candidacy to the right-thinking, tolerant men and women of Louisiana, Jew and Gentile, Catholic and Protestant. (Applause.)

A Voice—Did he win?

Mr. Sanders—And that man, running on that platform, with all the power of State and city and press against him, made such an appeal to the right-thinking men of Louisiana that we won by the biggest majority ever given a Democratic candidate in our State. (Applause). And the politicians were confounded.

Oh, my fellow-Democrats, no matter where we come from, remember all the bigots do not belong to one church, nor do all the rascals belong to one section. (Applause). And remember one thing more—you cannot fight intolerance with intolerance. (Applause.) You cannot fight the devil with fire. He is an expert in that line. (Laughter and applause.)

BUSINESS OUTLOOK ENCOURAGING

Under ordinary rules of economics, one of two factors may be depended upon to bring about a change in the volume of trading, and to increase buying from a hand to mouth affair to purchasing of a normal and dependant sort. The first is the decline of prices to a point where goods and services are attractive; the second, the exhaustion of supplies to a point where their replenishment becomes necessary. There is now good reason behind the optimism that prevails in this section and which finds enthusiastic expression through Hardy Eubanks, President, and Jere Cason, Secretary, as well as the other officials and directors of the Mexia Chamber of Commerce.

The demand for cotton, by the exhaustion of supplies of the raw product, and the crop which will begin to come in in earnest in a few days is the most responsible factor bringing about this happier feeling in the business life of the country.

Political uncertainties, which always affect trade and business, will disappear, as far as this immediate section is concerned, within the next two weeks and then the public, the people, the business man, layman and farmer, may again concentrate upon matters of vital interest to local welfare.

The most dependable barometer of business conditions are bank clearings and railroad car loadings, and from favorable reports in this connection has sprung an optimism throughout the financial circles of our country. Indeed, there is every reason to believe that optimism is growing in all parts of the United States.

Farsighted citizens know that the farmer has been the greatest instrumentality in briging about this bright outlook. When the farmer is happy, the nation is happy. When the farmer prospers, he distributes his prosperity throughout the length and breadth of the land. He is the foundation stone upon which normal business and progress may be constructed. Mexia invites his friendship and offers him her good will and friendly cooperation.

Let's have a market place in Mexia for the farmers.

THE EDITORIAL OF THE DAY

KEEP THE ISSUE CLEAR.

(Texas Christian Advocate.)

We are now in the midst of the run-off campaign in the governor's race. On the 23rd the people of Texas will again go to the polls to determine who shall fill this high office. The right to vote is more than a privilege—it is a solemn obligation, and every qualified voter does less than his full duty in the matter if he does not go to the polls. It is part of the duty of Christian citizenship to see to it that law is enforced and good government maintained. This is largely accomplished through the election of officials of the right sort. This statement holds true whether the official to be chosen is to fill an office of large or of small responsibility. It is particularly true of an office of such importance as that of governor of Texas. We have had one experience in recent years that culminated in one of the saddest chapters in the history of our State politics. We must not be swayed by sentiment, but we should be ruled by judgment. Let us keep the issue clear. The issue, regardless of what may be said, is prohibition and the enforcement of prohibition laws. We must quit allowing ourselves to think of the prohibition issue as a sort of parlor question over which we might have an evening's discussion or debate. It is a question that lies at the very roots of our civilization. In the present contest no one claims that all who are on one side are anti-prohibitionists. But all the anti-prohibitionists are on one side, and that of itself is a sufficient warning. This is no time to lose sight of the issue. Keep it clear by putting into the governor's office that candidate whose previous record, and whose published platform leave no shadow of doubt in our minds that the University and school system of the State will in no wise be interfered with or crippled, and that what we have had to contend bitterly for in our prohibition fights will be maintained.

FROM THE PEOPLE.

To The News:

The report of the recent trouble of the imperial wizard and his negro masseur, caused by the attempt by the latter to occupy a Pullman berth, seems to be causing considerable discussion and some little friction in various parts of the State. In the interest of hormany I suggest the adoption by the Democratic convention at Austin of the following resolution:

Whereas: It is reported in the press of this State with whiet passengers on a train between Shreveport and Fort Worth recently compelled the negro masseur of Dr. Hiram Evans, imperial wizard of the Ku Klux Klan, to give up his berth in a sleeping car and ride in the negro coach; now therefore, be it

Resolved, That the Democratic convention of Texas condemns and resents the action of said passengers in interfering with the prerogatives of royalty, inherent in and attaching to the imperial wizard, and that we request the governor in whatever State in which the facts shall show such outrage took place to submit to the next legislature of such State appropriate legislation permitting the imperial wizard and all other high officials of the Ku Klux Klan to be accompanied by and carry with them into any and all places such negro retainers, masseurs, valets, hair dressers and friends as they desire. And that all agents of sleeping car companies be required, before selling accommodations in any sleeping car, to communicate with the cyclops of the nearest Klan and ascertain what number of berths, sections and drawing rooms will likely be required for the use of any high officers of the Klan and their negro retainers and friends, and said agents shall be required, under severe penalties, to make such necessary reservations, after which the remaining space, if any, may be sold to the general public, Klansmen of lower degree, however, being given preference over aliens.

Very truly yours,
JAMES B. HUBBARD.
Belton, Texas.

CENTRAL TEXAS PRESS.

Editorial Dignity.

To what frailty hath the dignity of an editor come that it must hinge upon the condition of his trousers! It is no pleasant commentary upon the standing of the profession that one of its number should feel that all is lost because somebody squirted a hose on his best pants. And yet, according to a news item from Dubuque, Iowa, the editor of a paper in that community claims to have been humiliated and to have had his trousers ruined by a too intensive and concentrated application of the national drink and is suing for $10,000 damages.

Shades of Greely, Dana, Watterson and all the rest of them! Time was when an editor's dignity couldn't be pried loose with a crowbar. The late Mr. Greeley is said to have worn a shirt so intricately patterned with tobacco juice and egg stains that it could be entered in a modern art exhibition as a futurist sunrise. But did a little thing like that impair the dignity of a great man, as editor? What would Greeley thing of a man whose dignity was so feeble that it succumbed to wet trousers? What would he think if that man were an editor?

It is significant of the decadence which has come upon the editorial person that one of them should even be concerned about having a good pair of pants. It smacks of a scrambling after the mammon of unrighteousness that is unworthy of editorial predecessors whose minds were stayed on loftier things. They were stalwarts, who fought and shed ink for principles, with trousers frayed at the bottoms and patches where they would do the most good. They might even have lost their trousers, but never their dignity—nay, not even if their shirt had gone, too.

It is no desire of ours to prejudice the courts of Iowa in this case. Being so far removed, it isn't likely that we shall, but come what may, we cannot refrain from remarking that any editor whose dignity is so delicate it can be damaged by a hose is profiteering if the asks $10,000 for it.—New York Sun.

Ill fares the editor
To hastening rags a prey,
Where wealth accumulates
And pants decay.

While there has been a loss of 15 percent in total population in Alaska between the two last census periods, there has been an increase of 20 per per cent in the total white female population of that territory in the same time.

A smokeless fuel has been successfully produced from coal in England.

The annual gas production in the United States is 330,000,000,000 feet.

W. M. Tatum, Jr., from Corsicana spent the day in Mexia Thursday.

Sub Debs Ready For Arrival Of Prince of Wales

By BETTY EDWARDS,
Written for The United Press.)

WASHINGTON, Aug. 14.—Edward, Prince of Wales, the most captivating bit of young royalty in modern times, is coming back to Washington for an hour—but what a contrast to the days of entertainment that marked his last visit here.

Sub-deb hearts fluttered, for there were dances and receptions and dinners. A dance with a royal prince was a delicious prospect. Fortunate matrons of the ultra "cliff dwelling" set found the chance to cap their social career with a tea or dinner for the heir to the British throne—a feat to shed glory on the name throughout all future generations.

But this time—the White House Says there will be only a luncheon en famille—at once the highest mark of respect to royalty and a mark of respect to young Calvin, Jr., who died scarcely a month ago—and perhaps an informal reception. Even that is not certain.

According to tentative plans broached, the reception would be restricted to members of the cabinet, their wives, high officers of the army and navy and a few of the cream of Washington society.

It is to be doubted very much if this meager prospect would lure the latter from heir summer homes at Bar Harbor, Long Island, and Massachusetts, unless the White House invitation is looked on as a royal command—and the leaders of society here, outside of official life have always made it a point not to do that.

Nearly everybody is out of town and probably will stay out. They will pin their hopes of a glimpse of the prince, or a dance at one of the functions for which he has accepted invitations along Long Island Sound. There will be a dance given by Clarence Mackay, a dinner at the Piping Rock Club and perhaps something at the home of James A. Purdon at Sayosett, where he will stay during the polo match.

way for the official reception to be given the prince.

At the war department today it was announced that orders had been issued for a choice troop ofcavalry to meet the prince upon his arrival at the Union Station and escort him to the White House.

WELL IS DRILLED 2,030 FEET IN LESS THAN SEVEN DAYS

LULING, Texas, Aug. 14.—The recent drilling record set by the J. K. Hughes Developing Company crew when they spudded in a well on Sunday and set casing eight days later after drilling 2,110 feet caused a number of contractors to enter the competition, and Everett Suladie, drilling for the Hamlin Drilling Company on the Allen 18 of J. K. Hughes Developing Company has just set a new record. Spudding in the well on Supnday, Aug. 3, they had drilled 2,030 feet to the pay and set the casing on Sunday, Aug. 10, consuming exactly six days and nine hours in drilling the well. In the first day's running they made 804 feet in twelve hours.

"MEAT FOR HEALTH" IS SLOGAN OF PRODUCERS

CHICAGO, Aug. 14.—"Meat for Health" has been adopted as the official slogan of the livestock and meat industry of the United States, according to an announcement made here by R. C. Pollock, managing director of the National Live Stock and Meat Board which represents livestock producers, commission men, packers and retailers.

The successful slogan was picked from a list of 62 suggested by members of the National Board. "Meat—the King of Foods" came second in favor, and "Meat Makes the Meal Complete" was third.

MANCHESTER, N. H.—Work is to begin shortly on a new Masonic temple on Noth Elm Street in this city. The lodge expects that the temple will be completed in a year.

Lumber Made of Sugar-Cane Only U.S. Exhibit at Wembley

B. G. DAHLBERG
PRESIDENT CELOTEX COMPANY

KING GEORGE, QUEEN MARY AND QUEEN OF ROUMANIA VISIT EXPOSITION

CHICAGO — Synthetic lumber made in the United States from the waste fibre of sugar-cane is the only product manufactured outside the British Empire on exhibition at the British Empire exposition at Wembley, England, according to the Hon. A. H. Jones, of Brisbane, Australia, Minister of Mines of Queensland, in Chicago on his way back to the Antipodes.

"The new sugar-cane lumber," said Mr. Jones, "is among the Wembley exhibits because under the superintendence of the Australian government, a $2,000,000 plant for its manufacture is soon to be established in Queensland. It is attracting great interest. With the depletion of world forests, it seems probable the manufacture of synthetic lumber will become one of the great industries of the future. In its cheapness, its wonderful insulating and sound-deadening properties and other advantages, it will go a long way, the British think, toward solving the housing problems of England and many of its colonies. The housing problem is especially acute in Australia which grows no soft timber and has to import all its building lumber at heavy expense from across the seas."

The Queensland Minister of Mines was so impressed with the artificial lumber that he made a special trip from Chicago to New Orleans in company with B. G. Dahlberg, president of the Celotex Company, to investigate the only plant in the world in which it is made at the rate of 500,000 feet a day.

LONDON, SLOW TO TAKE UP BOBBED HAIR, DROPS IT

LONDON, Aug. 14.—The bobbed and shingled style of hairdressing, which took an incredibly long time as compared with other fashionable centers, to percolate into London society, is going out of fashion with a run in this country.

Long hair is now all the rage here again, and this season's debutantes are taking co-called rest cures until their hair grows again and gets beyond the "straggly" and old ends, stage.

Today, religious freedom remains among the fundamental law's sacred guarantees. Free men prize it above all else and guard it most jealously. They are wary, and rightfully so, of any movement or influence that tends to infringe upon it.—Denison Herald.

He's Not Fire. Man To Do This

ORANGE, Aug. 14.—A man 28 years old appeared at the county clerk's office here and asked for a marriage license "for the sweetest girl in the world" (of course). Aside from that appellation, he couldn't think of her name!

"How long have you known the lady?" asked the clerk.

"Seven months" was the reply. "Here it is, all written out." But the clerk couldn't make out the handwriting, so the lady was called on the telephone. Luckily, the man knew her telephone number, and the girl remembered her own name.

Gushers Make Clean Sweep of Series at Waco

FOWLKES MAKES LONGEST DRIVE OF THE SEASON

WACO, Aug. 14.—The Mexia Gushers made a clean sweep of their series with Waco by winning both games of Wednesday's double header by scores of 3 to 2 and 8 to 3.

Manager Jack Shires was forced to shift his lineup quite a bit due to the fact that both Thrash and Red Hall were out of the game due to injuries. Meeks who hurled the first game for Waco was very dependable but lost his duel to Jeffries due to errors of commission by Lewis and errors of omission by others.

Lewallen, pitching ace of the Chilton team, was on the mound for Waco in the second game and his baffling delivery buffaloed the Gushers until the sixth and seventh when with the aid of home runs by Leedy and Fowlkes they ran across seven runs to win. Lewallen struck out 7 men in seven innings. Lothes was a star at the bat again getting five hits in six times at bat in the two games.

Young Jeffries, the youthful Mexia southpaw, who has been a persistent menace to the Waco cause all this season, made his farewell 1924 appearance against the Tribe, and despite the fact that he had already won the first game of the series, he hurled splendid baseball in the pinches to put over another win for the Mexia team.

Meeks Pitches Star Game

Meeks, a Mexia castoff, and later with the Marlin club was in the box for the Tribe and he pitched superb baseball, allowing only eight hits, some of which would not have gone as such with real outfielders on the job. With Jack Shires in charge of the club, following the release of Carson in order to cut down expenses for the balance of the season and with Thrash and Hall on the injured list, it was a makeshift line-up indeed, which the locals presented yesterday, Catcher Lothes being used at third, while Humphreys, another catcher, on second, and Red Hill, who as an outfielder, is a good pitcher, was in right. The visitors got two on in the first with none out when Geppert singled and went to third on Butler's double, but Meeks rose to the occasion and retired Jones, Seeley and Fowlkes in order.

Lothes who starred at the bat for the locals in both contests hammered in the first run of the game in the second inning, while Meeks' double and Lewis' single accounted for another in the third. Mexia scored two runs in the fourth on Leedy's double, followed by another to right by Naylor, the second being a high fly. Naylor went to third on a wild pitch and scored in the same manner. The winning run came in the fifth on an error by Lewis, followed by Butler's single to left. Lothes opened the ninth for the Indians with a double, but was left stranded, as Jeffries hurling in flawless fashion retired Hill, Meeks and Kelly in order.

Fowlkes Hits Longest Drive of Year

The second game was a brilliant pitchers' battle until the sixth between Outfielder Ned Seeley of Mexia and Jimmy Lewallen, pride of Chilton, who made his debut in a Waco uniform. And the Chilton star pitched a splendid brand of ball until the sixth, when with the Tribe leading 2 to 1, Gus Leedy connected with one of his fast ones for a home run over the left center wall with two on, thereby cinching the ball game. In the seventh the visitors made a race track out of the diamond, the game, the final one of the year between the two clubs, being climaxed by the longest home run ever seen at the local orchard in the two year history of the Association. It was Toughey Fowlkes, manager of the visitors who came through with the Ruthonian. That one wallop was well worth the price of admission. It was well worth the boresome three hours or more which had been spent at the park, for it is seldom indeed that one is given the opportunity to witness such a drive. Lewallen, the kid pitcher from Chilton, attempted to breeze one by the Mexia manager, but Fowlkes was set for the groover. He met the horsehide with a vicious cut and away it sailed, the ball landing on top of the Dr. Pepper sign in the furthermost corner of the park. It hesitated for a fraction of a second on the sign, then bounded on out of the park. It takes quite a wallop to even hit this sign, but it has been done on several occasions this year, but never before has a Texas association player here able to drive the pellet over this sign. There were two on at the time, the Gushers scoring four runs in this inning. Butler cut short an impending Waco rally in the seventh when he made a sensational catch of Hill's long drive after Lothes had singled. The latter, however, scored on Lewallen's hit, making the final count 8 to 3.

AUSTIN 9, TEMPLE 2

TEMPLE, Aug. 14.—The Rangers won a slow and uninteresting game here yesterday, 9 to 2. Brooks was hit hard, but braced in pinches and was accorded good support. The Surgeons fielded miserably, ordinary chances going for infeld taps. Bedford hit a home run.

TOM M. CAIN
R. W. (BOB) STEEN

For County Treasurer—
MRS. LULA OATES, (re-election.)
H. C. FITZGERALD.

For Justice of the Peace, Pre. 4—
S. H. FLAKE
CHARLES L. CLOVER.

FOOT HEALTH TALKS
The Great Arch of the Foot

Have you ever realized that wrong posture in standing or walking may injure the arches of the foot? Or that weakness of the foot and leg muscles may reduce the resistances of the arch? Read what Dr. Scholl, eminent foot hygienist of Chicago, says:

By WILLIAM M. SCHOLL, M. D.

New theories and conceptions of the mechanical nature of the great arch of the foot are constantly arising. This is the large arch under the instep and is often considered as two. Re-statements of known conditions are constantly presented in the light of the investigator's own findings.

There could be no more fascinating study. One view likens the great arch to the true mechanical arch, such as the arch made of stones with its V-shaped keystone. But the arch of the foot lacks a keystone and is so formed as to yield under stress. It gives elasticity to the foot and absorbs the shock when the body comes into contact with the earth. It is brought into play in the exercise of the leverage motion of the foot in forcing the body upward and onward.

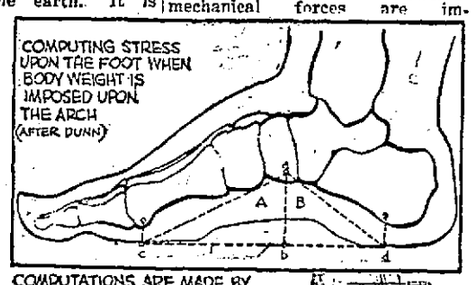
Another view likens the arch to a suspension bridge; the astralagus acting not as a keystone but as a reenforcing girder bridging two oblique piers.

The statics of the arch under pressure indicate that in distributing the body's weight it acts like a true mechanical arch. But though it functions as a mechanical unit we cannot overlook the major part played by the ligaments and muscles of the foot and leg in sustaining it. We cannot consider it as independent to the rest of the foot.

Good brisk walking in the open air is one of the best stimulants to the ligaments and muscles and helps them to resist the strain on the arches. Standing all day at one's work is not a substitute for walking. Some muscles are strained while others remain inert, not actively contracting.

It is more difficult to correct arches that have become flat, than weak arches. Various treatments are used in weak and depressed arches. Personally I favor the restoration of the arch by intelligently fitted arch supports to give temporary correction and muscular control, and have seen patients walk away in comfort. But the method of fitting is all important and not a little depends upon the advice given the sufferer.

The best time to correct foot troubles is before they begin. Wrong posture may injure the arches of the foot. Powerful mechanical forces are imposed upon the foot and the body weight should be so carried as not to place it at a mechanical disadvantage. The foot and shoe are speedily distorted by these forces when they are obliged to function improperly.



COMPUTING STRESS UPON THE FOOT WHEN BODY WEIGHT IS IMPOSED UPON THE ARCH (AFTER DUNN)

U. S. POLOISTS SHOULD WIN.

By FRANK GETTY

(United Press Staff Correspondent)

NEW YORK, Aug. 14.—America's polo four, which will defend the international challenge trophy at Meadowbrook, L. I., next month, rules favorite in the early betting over the invaders from the British Isles.

Man for man, and pony for pony, our team looks to be sufficiently stronger to warrant optimism that the cup which started on a series of trans-Atlantic voyages in 1886, will rest a little longer on these shores.

While the American internationalists may not be the strongest aggregation this country ever has put in the field, they do not fall far short of human perfection in team play, aggressive hitting and riding.

The team, as it probably will take the field, is:

No. 1—Eric Pedley, California
No. 2—Thomas Hitchcock, Jr.
No. 3—J. Watson Webb
Back—Devereu Milburn

Three of these poloists—Hitchcock, Webb and Milburn—are veterans of many an internatonal chucker; Pedley is a comparative newcomer, yet we find him at the difficult No. 1 position—a fixture, looked upon to lead the attack, together with the hard hitting Hitchcock.

Tommy is perhaps the greatest polo player in the world today. As No .3 Webb earned his place after a struggle. Milburn has no peers as a back.

The British team is strong; the American one stronger; the polo—in which there seems to be a slight increase of popular interest—should be fast and worthwhile. The Prince of Wales is on his way to watch, and there are practically no tickets to be had.

Polo has become a democratic sport in England since the war. Before only those who were members of the club could watch. Now, anyone, with the price of a ticket, may look on. They call this "playing the gates", something the British poloists would never have thought of doing before the war and prohibition—which showed that some of our best, if not wealthiest, citizens made rattling good polo players, and some of our best polo players unexpectedly turned out to be bootleggers.

"Norah,why haven't you brushed down that cobweb?" "Cobweb?" Lor' mum, I thought that had somethin' to do with yer wireless." Boston Transcript.

The word "magnet" comes from the fact that the best specimens of lodestones comes from Magnesia, a city in Asia Minor.

Creosene Stops Sore and Bleeding Gums in 12 Hours

This new discovery is a pleasant penetrating liquid medicated with gum-tissue healing and germ-destroying ingredients used by the dental profession, which carries the medication direct to the roots of the teeth, relieving pain, tightening loose teeth, healing pus pockets and killing the germ that leads to pyorrhoea, thereby accomplishing at home in a pleasant way, all the good benefits of a treatment in the dental chair without the pain and expense. Recommended by Bennett's Drug Store.

HOME DRESSMAKING

By JEANNE ROLAND
(Copyright 1924 by Pen-Art Service, Inc.)

New Idea in Blouses

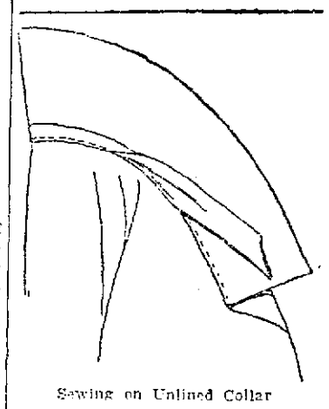
Paris Creates a New Sports Vogue

Because the separate blouse is of so much importance to the well-dressed woman, Paris gives more attention than ever to its development. A totally new idea is exploited in the trimming of this model in heavy silk crepe.

Paris has designed a new way to make a sports blouse resemble a masculine garment, at the same time retaining the dainty touches that make it dear to the feminine heart. This model in tan silk crepe is trimmed with brown silk and cut in square effect at the sides, to resemble a man's shirt. It hangs in perfectly straight lines and has kimono sleeves, which may be either worn short or lengthened by deep extensions gathered into narrow bands at the wrists. The long sleeve is growing in importance for sports wear, because sports fashions reflect the modes for general use. This model calls for 2½ yards of material 36 inches wide and 4½ yards of braid as wide as desired.

The neck is finished with an unlined collar, the development of which is, perhaps, the only part of the blouse that home dressmakers may hesitate over. By following the rules given here, however, there will be no trouble. Hold the blouse right side out, as shown in the diagram, then baste the under side of the collar to the right side of the blouse. It is a practical idea to finish the edge of the collar first with the braid. To make the work very neat, stitch the braid from the under side and bring it over to the top for the final stitching. Or, if preferred, the braid may be folded in half and the edge of the collar inserted between the fold.

Hold the neck edges evenly together, and use a bias band of the crepe de chine when basting the edges of the collar and the blouse together. Put the edge of the collar next to the edge of the blouse and the facing next to the edge of the collar. Make a seam when stitching about one-half an inch wide, or slightly narrower. If necessary clip the seam at intervals so that the collar will have easy, smooth lines. This also will make it fit better.



Sewing on Unlined Collar

Next, draw the facing to the under side of the blouse and turn under the edge. Hem to the blouse by hand. If preferred, the blouse may be trimmed with bands of self-material instead of braid.

Court Expert Quite.

LONDON, Aug. 14.—Herbert A. Trendell, regarded as the most versed man in the world in his knowledge of coure ceremonial and etiquette, is shortly retiring from his position as chief in the Ceremonial department of King George's household.

Some idea of the extent of his job may be gained from the fact that he has to have an intimate and detailed knowledge of more than 300 different court dresses suitable for all occasions by the people entitled to wear them.

THE STATE OF TEXAS

To the Sheriff or any Constable of Limestone County—Greeting:

You are hereby commanded to summon Wm. R. Ray by maning publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to be and appear at the next regular term of the District Court, 77th Judicial District, of Limestone County, Texas, to be holden at the Coutrhouse thereof, in Groesbeck, Texas, on the first Monday in September, A. D. 1924, the same being the first day of said month, then and there to answer a petition filed in said court on the 29th day of July, A. D. 1924, in a suit numbered on the docket of said court No. 4695A, wherein Mrs. Wm. R. Ray is plaintiff and Wm. R. Ray is defendant, and said petition alleging: That plaintiff is and has been for a period of twelve months prior to the institution of this suit an actual bona fide inhabitant of the State of Texas, and has resided in Limestone County, Texas, for at least six months next preceding the filing of this suit; that plaintiff and defendant were married on October 24th, 1923, and lived together as husband and wife until about December 1, 1923, when plaintiff was forced and compelled to leave defendant by reason of defendant's cruel and harsh treatment and improper conduct towards plaintiff; that during the time plaintiff and defendant lived together plaintiff was an ever dutiful and affectionate wife, but defendant, unmindful of his marital vows, and within three days after their marriage, began a course of unkind, harsh, cruel, and tyrannical treatment of plaintiff; that defendant stayed drunk practically all the time and constantly abused plaintiff; that on many occasions said defendant cursed and abused plaintiff and applied to her the vilest and most opprobious epithets, without any cause or provocation on plaintiff's part; that defendant often beat and hit plaintiff, twisted her arm, shook her severly, and struck her with his fist; that defendant's actions and conduct towards plaintiff are of such a nature as to render their future living together as husband and wife insupportable. Plaintiff prays that defendant be cited by publication and alleges that his residence is unknown to plaintiff; plaintiff prays for a divorce from defendant and that their marriage be dissolved; that her maiden name be restored and for costs of suit and for such other and further relief, special and general, in law and in equity as in the premises she may be justly entitled.

Herein fail not, and have before said court at its aforesaid next regular term, this Writ with your return thereon, showing how you have executed the same.

Given under my official hand and seal of said Court, at my office in Groesbeck, Texas, this 29th day of July, A. D. 1924.

(Seal) JOHNSON WAKEFIELD,
Clerk of District Courts,
Limestone County, Tex.
By Ruby Lawley, Deputy.

A true copy I certify.
WHIT POPEJOY,
Sheriff Limestone County, Tex.
By N. P. Harris, Deputy.

Gilbert and Sullivan And Henry Ford

SLATER, O., Aug. 14.—Henry Ford has selected a few lines from light opera to instruct his railroad employees in chasing dirt.

The new watering station on the Detroit, Toledo and Ironton is the most beautiful building in this little village of less than 100 persons and apparently Henry Ford intends to keep it that way.

A landscape gardener has carefully graded and plotted the lawn. Framed in a conspicuous place inside the building are these lines from "Pinafore."

"When I was a lad, I served a term
As office boy to an attorney's firm;
I washed the windows, I scrubbed the floor,
I polished up the handle of the big front door."

NATIVE TEXAN HAS 85TH ANNIVERSARY

Was Son of Last Survivor of Battle of San Jacinto.

There was a notable birthday anniversary celebrated in Plainview Saturday evening when Captain Hampton Steele celebrated his 85th anniversary and among the guests were Mrs. Loretta Lamar Calder, daughter of Maribau Lamar, and Mrs. E. H. J. Andrews, daughter of Mrs. Calder.

The affair was held at the home of Mr. and Mrs. W. B. Rodgers, she being the daughter of Capt. Steele, southwest of Wayland College. A large Lone Star flag greeted the guests at the entrance to the yard and it waved proudly in the breeze.

The home was decorated with Texas flowers, mostly in red, white and blue colors, and on the wall was a picture of Capt. Steele's parents, and also of that hero's great-great-grandson, who was a soldier in the world war.

The dinner was abundant and delicious, being cooked and served in old country style by the daughter. It was a jolly party that partook of the repast.

Following the dinner, the guests gathered on the front porch, and recounted the incidents in the lives of Steele, Lamar, Houston and other Texas heroes in the war for Texas independence, and of the cry of the Texans after the Mexicans ran at San Jacinto, "Remember the Alamo," "Remember Goliad," and the cowardly pleading was "Me no Alamo," "Me no Goliad."

The guests were Mrs. Calder of Houston, Rev. and Mrs. E. H. J. Andrews, Mr. and Mrs. F. W. Brooks, natives of Grimes county, where the honoree was born; E. B. Miller and J. M. Adams, and Mr. and Mrs. Steele.

Mr. Steele is the son of Alfonso Steele, last survivor of the battle of San Jacinto, and claims to be the oldest native Texan now living. He was born in 1839 in Grimes county, and his home is now in Thornton, Limestone county, and he and Mrs. Steele are spending the summer here with their daughter, Mrs. W. B. Rogers. He says he is the only man in Texas who had a great grandson who served in the world war. His present wife is his third. He is the father of 14 children, 53 grandchildren, 50 great-grandchildren and three great-great-grandchildren. He does not appear to be more than 60 years of age, as he is so well preserved, ruddy complected and active. He is the president of the Native Sons of Texas Association, which has a charter from the State. His father was shot and wounded during the battle of San Jacinto, and several years ago, just before his death, went with A. J. Houston, son of Gen. Sam Houston, to San Jacinto, and pointed out the positions of the Texas and Mexican troops.

Mrs. Calder is the only daughter of Gen. Maribau Lamar, who commanded the Texas calvery at San Jacinto, and made the famous charge. He was the first vice president and second president of the republic of Texas, and was the father of the State free school system. Lamar ward school in Plainview, was named in his honer. Mrs. E. H. J. Andrews is the daughter of Mrs. Calder, and Miss Calder of Houston, another daughter is spending the summer here.

The editor of the News is also somewhat of a Texan. His grandparents came to Texas when it was a province of Mexico, and fought in the wars against the Mexicans and Indians and freed the state. His mother and father were born in Nacogdoches county, and his mother, Mrs. R. A. Adams of Dublin will be 74 years of age in November. An aunt, Mrs. Margaret Standfield, died in McLennan county last year, age 93 years, having been born in Texas, in the famous Edwards colony. —Plainview Leader.

Hampton Steele of Thornton writes from Plainview that he is having a great time visiting in that section and praises the citizens there most highly.

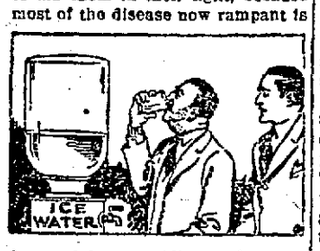
MEERS NUMBER 1 NOW DRILLING AT 225 FEET

J. Meers was here today from Hubbard, near which place he is drilling a wildcat test. The test is now down 325 feet, is known as the J. Meers No. 1 and is on the Nathan Land, 100-acre tract. The Woodbine is expected to be encountered around 1,750 feet.

There are more than twice as many motor cars and trucks in Hawaii as in all China.

Million Persons Ill Daily Through Health Carelessness

THE alarming increase in infectious diseases throughout the country has stirred national, State and municipal health authorities to extraordinary activity to stem the tide of sickness and remove the causes of death. The officials seeking to prevent this wide spread of illness are calling upon the public to aid them in their fight, because most of the disease now rampant is



due mainly to public carelessness or neglect of ordinary precautions.

In the opinion of Dr. Herman N. Bundesen, Commissioner of Health in Chicago, there are on an average 3,000,000 persons ill all the time. He says that forty-two per cent of this illness is preventable, which means that every day there are over a million men, women or children shut in and suffering when they could be healthy and happy had they applied personal sanitary measures.

The recent announcement of the United States Public Health Service that smallpox has had outbreaks in thirty-five States has called attention to the fact that most of the cases of this disease are carried from one city to another and from one State to another by sufferers who fail to take proper protective measures.

It has been found that much of the communication of diseases is due to carelessness in the use of drinking vessels. An investigation in Chicago, reported to the General Health Bureau, gave the results of analysis of twenty common cups or glasses. Nine were taken from schools, three from hotels, five from railroad depots, two from stores, and one from a children's home.

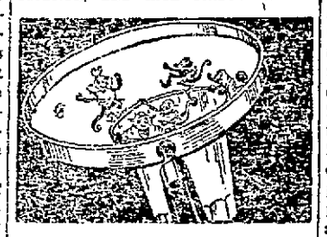
All of these revealed the presence of germs to a dangerous degree. It was evident that these glasses carried virus that would spread pneumonia, diphtheria, influenza and other general and contagious diseases. The Chicago bacteriologist infected guinea pigs with the germs so obtained. Five developed abscesses, six became very ill and two died, one of a pus infection and the other of typical diphtheria.

"It need hardly be said," concluded the report, "that the Commissioner of Health is heartily in favor of single-use drinking cups and that their value from a sanitary standpoint is beyond question."

Dr. Frank J. Monaghan, Commissioner of Health in New York City, says:

"When any one ill from an infectious disease drinks ice cream soda or any other drink at a public place, his saliva touches the glass. This glass if not properly cleansed will transfer the saliva and the germs through the drink served the next person. Thus, it does not demand any imaginative process to understand how the common drinking glass spreads infectious diseases.

"Avoid using the common drinking cup," he advises. "When you stop for a glass of ice cream soda or any other drink at a fountain where you can see how the glasses are cleansed, do not give your order if the cleansing is not properly done. At all public places, drinking glasses should be sterilized by being washed in hot soda solution, and then rinsed in hot



water. If this process is not used, then paper drinking cups should be used."

The common drinking cup, as pointed out in Bulletin No. 57 of the United States Public Health Service, when improperly washed between users is largely responsible for the communication of: tuberculosis pneumonia, typhoid fever, scarlet fever, diphtheria, tonsilitis, influenza, measles, infantile paralysis and colds.

Dr. Charles V. Chapin, of Providence, R. I., one of the most noted sanitarians of the country, says:

"Indirect contact is far more important than direct. Perhaps the use of a common glass for drinking is the best example of a mode of indirect contact. It was also the first which the public learned to appreciate and avoid. The common drinking glass is going, but unfortunately has by no means gone. Even if the Board of Health neglects to enforce the law against it, no one need use it. That is within one's absolute control.

There are many persons who will not water a horse at a public fountain for fear of glanders who will themselves drink out of anything."

Because of the agency of the common glass in the spread of the diseases that now are taking their toll in sickness and death the local health authorities are directing their first steps toward the detection of those violating the law forbidding its use.

Forty-four States have such laws, and these are supplemented in many cases by municipal ordinances. Because of the great number of public places, soda fountains, schools, railroad stations, theatres, hotels, restaurants and other places where these are used, it generally is impossible to cover the whole territory except at long intervals. For this reason most of the health boards are asking the public to aid them in their campaign by reporting such violations as come to their notice.

It is hoped through this means to remove the peril that lies in the path of children who are too young to discriminate or care, or adults who are thoughtless or neglectful of the comfort and health of others. Many civic organizations, such as the Parent-Teacher Association, settlement houses, Chambers of Commerce and other groups are working with health officials to eradicate the menace to health.

The application of united effort to this step, it is believed, will heavily reduce the illness that now needlessly claims one million persons each day.

Temple Being Renovated.

MIDDLETOWN, Conn., Aug. 14.—St. John's Masonic Lodge No. 2 has oversubscribed the amount estimated as necessary to make improvements in its present home and add a new lodge room. It was hoped to raise $40,000 and the enthusiasm of the brethren was shown by the immediate subscriptions amounting to $41,500.

A wedding was delayed recently because the bridegroom fainted. We understand, however, that the poor fellow was merciless revived.—Humorist, London.

Piles Are Absorbed Never To Return

After years of patient, painstaking effort on the part of a well known doctor, a prescription has been found that will actually heal piles and absorb them never to return.

No man or woman need suffer another hour with any discomfort, pain or soreness arising from rectal troubles—piles—now that this wonderful prescription, known as MOAVA can be obtained for a moderate price at any first class drug store on the money back if dissatisfied plan.

You'll be amazed to see how quickly it acts. Blessed relief often comes in an hour; even in cases of long standing with profuse bleeding, really wonderful results have been accomplished.

Simply ask your druggist for a small box of MOAVA SUPPOSITORIES, being careful to follow the simple directions that come in each box. (adv)

THE SIGN OF SURE SAVING

on shoes is our shoe repair sign. No man is well enough off these days to ignore the economy lesson of such a sign. Make your shoes last twice or three times as long, while retaining their shape and style, by having them soled, heeled, and kept in repair by the O. K. Shoe Shop.

We carry a line of golf soles and heels. Come in and get your old ones made new.
